Vol. 14. No. 270.

Rushville, Indiana, Friday Evening, January 25, 1918

TWELVE PAGES TODAY

FORECAST SHATTERS FALSE HOPE

Aroused by Warm Weather Today
But Depressed When Prediction of
Cold Wave Tonight Arrives.

ROADS ARE IN BAD CONDITION

Rural Carriers do Not Attempt to
Deliver Mail After Experiences
of Yesterday

MANY PULLED OUT BY TEAMS

One Car of Coal Arrives For Dom-
estic Use and County Receives
Two Cars This Morning

False hopes aroused today by the warmest weather in more than two weeks, which promised to relieve somewhat the serious fuel situation, were shattered when the weather forecast for a cold wave tonight came from the Indiana weather bureau in Indianapolis.

It was just two weeks ago this afternoon when the blizzard which was the forerunner of the coldest weather in Rush county in thirty-four years, began and up until today the temperature has never been above freezing.

Another car of coal arrived today, being received by John P. Frazee, and indications were that it would be sold just as fast as it could be unloaded. The two car loads of coal received by Reed and Son were all sold yesterday. Dealers are expecting more coal very day, but there is no assurance when it will arrive.

The court house, which was on the verge of closing yesterday for the lack of coal, was literally rolling in coal today. Two car loads arrived this morning. Closing of the court house was averted yesterday by the loan of eight tons by the city, and this will be paid back by the county out of the two cars reaching here today.

If the weather man's prediction comes true tonight, the fuel situation will be as acute as ever because the demand of consumers does not seem to be supplied yet by any means.

A cold wave holds no terrors for people any more after the experience which they have undergone in the last two weeks. With few exceptions the mercury has gone below zero every night and has never been above thirty-two degrees at any time during the day. In strange contrast to this, street thermometers today were registering fifty degrees above zero and the snow was melting rapidly.

People from the country reported the roads in a terrible condition. The snow was melted enough to pack on vehicles and make travel very difficult.

Rural mail carriers except the one on rural route No. 1 did not leave the postoffice today after their experiences yesterday in trying to deliver the mail. They found the roads worse yesterday than they had been at any time in the last two weeks and telephone calls to patrons this morning brought the information that the roads were just as bad if not worse than yesterday. For this reason the postmaster instructed the carrier not to attempt to deliver the mail. None of the carriers got over their routes yesterday though some of them delivered all their mail by the assistance of patrons. Many of them had to be pulled with teams for several miles after being stuck in snow drifts. The carrier on No. 1 went out so New Salem routes would get their mail.

The schools at Raleigh and in that vicinity were closed today on account of the bad condition of the roads there which prevented the school hack from making its usual rounds.

RED CROSS SUPPLIES SENT

Immense Quantity of Hospital Gar-
ments Shipped to Headquarters

Immense shipments of Red Cross supplies, including between eleven and twelve hundred hospital garments and articles, have been sent out from the headquarters recently. On Wednesday night, seven big boxes containing the goods were packed. Five of the boxes were sent directly abroad and two were sent to the Indianapolis headquarters because they contained miscellaneous articles. One box contained 655 pillow cases. Aside from these were bathrobes, pajamas, and bed shirts.

TALBERT IS TAKEN TO FORT HARRISON

Man Held Here As Deserter to Be
Put in Guard House, According
to Washington Instructions

POLICE TO GET \$50 REWARD

"Take the deserter to the nearest fort" were the instructions wired to Chief of Police Yakey in answer to the query sent to the adjutant-general at Washington concerning Clarence Talbert, who was arrested here on a charge of vagrancy and afterwards found to be a deserter from the army at Columbus, Ohio. Basil Seward took Talbert to Fort Benjamin Harrison today, where he will be placed in the guard house and await trial at the army post.

The message also stated that a reward of fifty dollars would be given to the persons making the arrest, who were Policemen Basil Seward and Marshall Newhouse. Talbert confessed to having deserted, saying that he had been in the guard house so much and that he understood that he was to get a dishonorable discharge.

WORKED 59 YEARS FOR ONE FIRM ALONE

Such Was Record of Father of
Charles J. Caron Whose Funeral
Was Held Yesterday

COFFIN HAULED IN BIG WAGON

Mr. and Mrs. Charles J. Caron have returned from Union City where they attended the funeral of Mr. Caron's father, John Caron, Sr., who was said to be the oldest employe working for one firm in the state of Indiana. Mr. Caron went to work at the Koontz furniture factory at Union City in 1858 and worked there without a vacation until a year ago when his health began to fail. The completion of his fiftieth year at the factory was the occasion for a big celebration.

The funeral cortege could not reach the cemetery yesterday on account of the condition of the roads. The motor vehicles were all stalled in the snow and the coffin had to be taken from the hearse and hauled to the cemetery in a big wagon.

AMERICANS IN ACTION ON SEVERAL SECTORS

(By United Press.)

Washington, Jan. 25.—Early this week American forces on the west front were in action on several sectors.

Four were killed on Jan. 21 and 22. Three of these have been recently reported and the fourth Pershing cabled today.

Action also was reported between Americans and the Germans on Monday.

FIRST DRAFT COST COUNTY \$441.50

Average Per Capita Cost \$6.69,
Which is Above Average For
State, According to Report

NEARLY HALF OF IT WASTED

Only 5 Per Cent of Men Inducted
Into Army—Examination Wed-
nesday and Thursday

Names of registrants called for examination next Wednesday and Thursday will be found on page seven today.

The first quota of sixty-six registrants prepared by the county army selection board for induction into the national army cost the county an average of \$6.69 each, according to a report on the cost of the draft compiled by Harry B. Smith, the adjutant general of Indiana. The total cost in Rush county was \$441.50.

Nearly half of the money expended in fixing the status of these sixty-six men was wasted as only sixty-five percent of the number was called to camp and a half dozen of them were sent back home because of physical unfitness. The remaining thirty-five percent which have not yet been called reverted to their old status when the new rules and regulations were issued and had to answer the questionnaires the same as those who had never been called under the old rules.

Rush county's expense was not as high per capita as some other counties, but it was higher than a number of counties in the state. Some selection boards spent money recklessly. For instance, the per capita cost in Switzerland county was \$18.16 and the per capita for the quota of division No. 2 in Wayne county was \$14.77. Several boards spent more than \$12 a man and a number of them cost at least \$10.

Payette county's per capita cost was \$1.10, one of the lowest in the state and Henry county's was \$6.61. Hancock county's was \$5.99 and Shelby county's was \$6.17. Decatur county's was only six cents per capita, which is the lowest in the state.

The average cost for each man in the state to point of enlisting was \$6.28, according to the report, which reveals that Rush county was a little above the average.

Three more rulings from the district board have been received. The board reversed itself in a re-classification of John Alsmann of Arlington, who was put in class two on an agricultural claim in a previous report, but has been moved back to one. The agricultural claim of Talma Hoff of Manilla was denied and he was left in class one. The local board was sustained in the case of Earl McFall of Arlington, who was put in class one on a dependency claim and appealed.

The county board has called registrants for physical examination on next Wednesday and Thursday, twenty-four for Wednesday and twenty-one for Thursday. Men have already been called for examination on Monday and Tuesday of next week. The whereabouts of two men called for Wednesday—Homer Smith and Frank D. Seegers—are unknown. They were placed in class one for failure to return their questionnaires.

The board has just twenty-four questionnaires to deal with yet. A disclosure that 1405 have been acted upon. Some of the twenty-four yet to be acted on are questionnaires of men already in the service, or are either lacking in information or have to be corrected.

Three more men were classified today. Ed Gloyd of Greensburg was put in class two, Chester A. Meal of Manilla in class five and Aubra Dearing of Bedford in class five.

Continued on Page 7

NITRATE OF SODA CAN BE ORDERED

Arrangements Made by Department
of Agriculture From Farmers to
Order Through County Agent

100,000 TONS ARE BOUGHT

Only Owners or Holders of Farms
May Take Advantage of Offer
—No Money With Application

Nitrate of soda will be sold to the farmers of this county through the county agent, M. F. Dietrick, according to the word received through the U. S. department of agriculture. The nitrate has been purchased through the War Industries board under the authority of the Food Control Act as a part of the program for stimulating agricultural production. It will be unloaded at Atlantic ports and the price will be \$75.50 a ton, free on board cars at port of arrival. Farmers are to pay in addition, freight from port of arrival and the State fertilizer tag fee.

Only actual farmers or owners or holders of farms may make application for a part of the 100,000 tons of nitrate bought by the government. These applications are to be made through the county agent or through a member of the local committee consisting of Earl Payne and John F. McKee of New Salem.

No money will be required with the application but upon notice from the county agent, farmers who have made applications must deposit with a local bank, association or individual, designated by the secretary of Agriculture as the farmer's agent for that purpose, money to cover the cost of the fertilizer except the freight charge. When the money is transmitted to Washington, the nitrate will be shipped to the farmers. If applications exceed the supply, the government will allot the supply on a pro rata basis among those who applied. Applications must be received by February 4.

PROMOTIONS WILL BE MADE TUESDAY

Will Make End of Term For Grade
Pupils and Monday High School
Promotions Take Place

1 SESSION TO BE CONTINUED

Promotions will be made in the city schools on next Friday, February 1, and on Monday, February 4. Grade pupils will receive their cards on the former date and the high school students will be given reports on the following Monday. Examinations in the high school will be conducted on Wednesday and Thursday of next week, while plans for the grade examinations will vary as to time.

The present plan of conducting school in only one session will continue until the weather is warmer and until another supply of coal is received. At present, the plan is working out very successfully.

BRINGS BACK SAMPLES

Sheriff Ezekiel Jones and his nephew, Hugh Jones, have returned from short stays in Chicago and Michigan City. While in Chicago they visited Mr. Jones' nephew, Neal Jones, who is a candy maker. The boxes of candy which the sheriff brought home to some of his friends proves that his nephew deserves the title that his Chicago friends have given him, "the candy king."

IRISH TO MEET PREMIER

London, Jan. 25.—Premier Lloyd George has invited the leading members of the Irish convention to confer with the cabinet.

DISTRICT MEET POSTPONED

Rebekah Lodge Session Will Not be
Held Until February or March

Because of the action taken by a number of the lodges of the city calling off all meetings in order that the fuel might be conserved, the district meeting of the Rebekah lodge, which was to be held in this city February 8, has been postponed indefinitely. It is the present plan of the committee in charge of the convention plans to call the meeting either the latter part of February or some time during March.

WHOLESALE PRICE OF STORAGE EGGS FIXED

Instructions From State Food Ad-
ministration Received by County
Administrator Lovett.

40 CENTS FOR STORAGE FIRSTS

Definite instructions on price of cold storage eggs are being given to the grocers by Charles A. Frazee, deputy in this city of M. F. Lovett, federal food administrator for the county. Wholesale prices for storage eggs have been set by the government at 40 cents a dozen for storage firsts and 41 cents for extras. The administration holds that a wholesaler who is out of eggs and must purchase to fill his reasonable requirements will be permitted to sell such purchases at a profit not to exceed 2 1/2 per cent in car lots and 4 per cent in small lots. The purchases are not to exceed one week's requirements. Any wholesaler who asks more than his usual profit will be profiteering, states the administration. Dealers are now charging fifty cents retail for storage eggs here.

SURVEYOR GENERAL OF SUPPLIES NAMED

New Job Created to Co-Ordinate
Army Purchases Seen as Play
For Harmony.

BAKER ASKS TO BE HEARD

(By United Press.)

Washington, Jan. 25.—By a tremendous attack on the inefficiency in the war department, the administration today reorganized the army supply department.

A surveyor general of the supplies to co-ordinate all army purchases was named—Edward Pfettinius, of New York.

At the same time the administration caused a counter assault in defense of Secretary of War Baker. In a letter endorsed by the president, the war secretary asked Senator Chamberlain for opportunity to tell the country "what America has really done in the war."

The dual move was started by officials here as a play for harmony.

FOOD STORES TO BE CLOSED

Monday Closing Order Hits These
Establishments as All Others.

(By United Press.)

Indianapolis, Ind., Jan. 25.—All wholesale and retail stores handling food must close every Monday beginning next Monday, continuing to March 29, according to an order from Herbert Hoover, made public by Dr. H. E. Barnard, federal food administrator for Indiana, today.

RESIGNATION REPORTED.

Copenhagen, Jan. 25.—The resignation of Premier Wekerle, Hungarian premier, was again reported here today, indicating continued political unrest in Austria-Hungary.

CENTRAL POWERS ANGLE FOR PEACE

Hertling's Demand That England
Give up Gibraltar is One of the
Balking Points.

ALSACE LORRAINE ANOTHER

Austrian-Hungarian War Aims
Show Significant Difference From
Those of Germany

(By United Press.)

Washington, Jan. 25.—The central empires are angling for further discussion with the United States, but will not go far enough to bring peace.

Count Hertling's demands that England give up Gibraltar and other fortified points. Another balking point is the Alsace Lorraine question.

Berne, Jan. 25.—In his long expected speech Count Von Hertling made to the Reichstag committee, received in Amsterdam today, raised an entirely new obstacle to peace. Count Czernin, Austro-Hungarian minister, in a speech received here contained what might be a significant difference of opinion with the German war aims. He adopted a more conciliatory tone in answering President Wilson's and Lloyd-George's terms.

"Austria-Hungary and the United States practically agree on many of the principals as to the arrangement of the world at the close of the war and approach the same conclusion on many peace questions," Count Czernin said.

"The interest of the United States and Austria-Hungary are left more incompatible than it would seem."

He also declared that the speeches of Lloyd George and Wilson contained acceptable principals.

"On the first four points an agreement is obtainable without difficulty," he continued.

"On the fifth there will be difficulty," he declared.

"The sixth concerns only Russia and the central powers."

"The seventh can only be settled in peace negotiations, but Germany has never demanded incorporation of Belgian territory by violence."

"On the eighth Germany does not wish annexation by violence but this is a question to be discussed by France and Germany."

"However we cannot talk of the annexation of Alsace Lorraine."

"On the ninth and tenth points Germany remains solidly with Austria-Hungary."

JANIE TALKINGTON DIES AT SON'S HOME

Expires of Dropsy and Heart Trou-
ble—Came Here From Barthol-
mew County 3 Years Ago

4 SONS AND DAUGHTERS LEFT

Mrs. Janie Talkington, 76, mother of J. E. Talkington of this city, died at the home of her son in East Tenth street yesterday afternoon after being ill for three years time. Dropsy and heart trouble caused the death. Mrs. Talkington came to this city with her son three years ago after having lived in Bartholmew county. She was born and spent her early days in Decatur county, where she became a member of the Christian church. Four sons and one daughter survive. They are Samuel Talkington of Madison, B. W. Talkington of Columbus, Arthur Talkington of Jeffersonville, J. E. Talkington of this city, and Mrs. Hattie E. Johnson of Elizabethtown.

The funeral services will be conducted tomorrow morning at ten o'clock in Walesboro. The remains will be taken there tomorrow morning.

Fake Relief Solicitors

This is an era of high prices. Bankers and financiers generally tell us there is plenty money in circulation. Naturally in flush times people are inclined to loosen up on the purse strings. This is commendable, especially in view of the many calls that are being made on the generosity of the public.

But if we are not very careful, much of our charity will be misplaced. There are legitimate calls that we must meet, and we can not afford to be humbugged. The government must be financed, the Red Cross and kindred organizations must be supported, and it will take every dollar we can rake together to meet these demands.

Aside from these legitimate demands, though, every now and then we are importuned to give to this, that and the other so-called "relief" scheme. People with more patriotism than brains conceive that the soldiers are not being properly cared for, and a "bazaar" is promoted to give the needed relief. The people out of their loyalty and generosity respond liberally, with the result that if the promoters are honest and disinterested, the soldier boys are deluged with a lot of junk for which they have no earthly use. In many cases, however, the promoters are "interested" more in themselves than in the boys, in which case the proceeds are mainly eaten up in the form of salaries and expenses.

The Government has issued instructions for all the auxiliary work it wishes the people at large to assist in, carrying on, and it will be well for all to read up on these instructions, that they be not duped. Not every young enthusiast who can scare up a red, white and blue sash and take a collection for a "cause" is to be encouraged.

There are, as we have said, legitimate channels through which our relief can be bestowed, and we should be very careful to see that it goes through these channels, that it may be sure of reaching the object for which it is given.

The Bar's Work

The voluntary, free-of-charge service of the lawyers have made the taking of the draft questionnaire a comparatively easy matter. This work has been done, not merely by the young practitioner desirous of extending his acquaintance but also by most of the older members of the bar to whom the time spent in this duty has been a real loss of professional income. A larger measure of hardly ever been rendered in any cause. The legal fraternity has earned the thanks of this community, where, but for its assistance, the registrants would have had a hard time of it.

All canning for the navy was shut off yesterday by order of Secretary of the Navy Daniels to purchase no more supplies. It is reported the order resulted from the discovery of impure substance. Probably some German Kulture got into the navy supplies.

Compulsory purchase of Liberty Bonds by property owners with the alternative of a pro rata tax on all

AN APPRECIATION

By Robert E. Mansfield.

ROBERT BURNS

January 25, 1759

July 21, 1796

TIME HAS DEALT
KINDLY WITH
THE MEMORY OF
ROBERT BURNS.
IT HAS SOFTENED
SOME OF
THE ASPERITIES,
AND ELIMINATED
MUCH OF
THE CRITICISM
THAT EMBITTERED
HIS LIFE.
BUT IT HAS NOT
DIMMED THE LUSTRE
OF HIS GENIUS,
NOR DETRACTED
FROM THE FAME
OF SCOTLAND'S
PLOWMAN POET,
AND PHILOSOPHER.
AS HE TOILED
IN THE FIELDS
OF AYRSHIRE,
HE WATCHED
THE DAISY CURL
BENEATH HIS PLOWSHARE,
AND WOVE IT INTO
VERSE IMMORTAL.
BURNS WAS
THE POET OF
THE PEOPLE—
LIVED THEIR LIFE,
SPOKE THEIR DIALECT,
LOVED, SINNED
AND SUFFERED
AS THEY DID.
THE TRAGIC STORY
OF HIS LIFE
NEEDS NO REHEARSAL;
IT IS FAMILIAR
TO EVERY LOVER
OF HIS VERSE,
AND ADMIRER
OF HIS GENIUS.
INURED TO A
LIFE OF TOIL,
INSPIRED BY A
VIVID IMAGINATION,
STIMULATED WITH
SCOTCH DRINK,
HE LED A
SORRY EXISTENCE.
BUT, HIS VERY FAULTS
ENDEAR HIM TO US:
WE LOVE HIM FOR
HIS HUMAN FRAILTIES.
SOME OF HIS SONGS
ARE THE SWEETEST
EVER SUNG IN THE
ENGLISH LANGUAGE.
AND WHEREVER
POETRY IS READ
HIS BIRTHDAYS
ARE CELEBRATED.
AROUND THE NAME
OF ROBERT BURNS,
POESY HAS ENTWINED
A WREATH IMMORTAL.

property, is provided in a bill introduced in the house of representatives by Rep. Green of Iowa at the request of the treasury department. This might work all right on some fellows.

The market quotations will be found today on page 7.

KEEPING SOLDIERS STRONG

Early in the world-war cod liver oil was selected to fortify the health of soldiers against the rigors and exposure of camp life and to help build up enduring strength.

SCOTT'S IS THE EMULSION

that actually guarantees the pure quality of Norwegian Cod Liver Oil which is refined in our own American laboratories. It is skilfully emulsified to promote prompt assimilation which is always difficult with the raw oil.

Scott's Emulsion is famous for putting power in the blood to thwart colds, grippe, pneumonia and lung trouble. It is free from alcohol or opiates.

—Mr. and Mrs. M. E. Harris of North Manchester will arrive this evening to spend the remainder of the week here, the guests of Mr. and Mrs. Irvin Harris who reside north of the city.

—Miss Marjorie Little has returned to her home in Lafayette after spending a week here, the guest of her grandparents, Mr. and Mrs. William Bennett who reside in West Tenth street.

—Mrs. Charles Wartel, who with her husband Capt. Wartel is residing in Louisville, was the guest of Mr. and Mrs. A. T. Mahin of North Harrison street last night. Mrs. Wartel has gone to Connersville to spend the week-end with her parents.

CHANGES OWNERS 3 TIMES

Milroy Garage Has 3 Proprietors in Three Weeks

"Who is the owner today?" is the first query made by patrons of the Milroy garage on entering the building. There is little wonder, however, that the question should be asked when it is considered that during the past three weeks the garage has changed owners three times.

Three weeks ago the business was under the firm name of Carr and Smith, two weeks ago it was changed to Clyde Kitchen and yesterday the name of Goldie Carr replaced that of Kitchen.

Amusements

Laid in the snowy wilds of Alaska, the story of "The Strength of Men" appearing at the Gem theatre this evening is one distinctly different and interesting. Edith Storey takes the leading role, "Captain Barnacles Legacy" and "The Fighting Trail" gram. Tomorrow, another adventure of Stinger will be shown.

The largest aviary in the world was used during the filming of Geraldine Farrar's first Artercraft cinema spectacle, "The Woman God Forgot," which will be seen at the Princess tonight.

A number of scenes show the huge private swimming pool and garden of Montezuma's daughter. This

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night, your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

pool was especially built for the production and is in the garden containing the temple of the sacred bird. The garden and pool were enclosed in wire netting nearly 50 feet high and 400 feet long, to prevent the escape of the thousands of birds with which the foliage was filled.

R. J. Blank, former local high school teacher who enlisted in the ordnance department and was sent to Fort Johnson, Fla., has been transferred to the "Remount" department. He was one of the 300 men chosen from the entire camp for this department.

The Evening Line-Up

Both children and grown-ups, with coughs and colds, are all the better for a dose of Foley's Honey and Tar at bed time. It wards off croup, stops tickling throat, and hacking coughs, and makes an otherwise feverish, sleepless night of coughing and distress, a quiet and restful one.

BROWNSVILLE, TEXAS, Mr. Chas. Baker, writes: "My wife would not think of using any other cough medicine, as Foley's Honey and Tar is certain to bring quick relief. It is especially effective in cases of bad cough, and we give it to our children and recommend it always as a safe remedy, for it contains no opiates."

F. B. Johnson.

We Are Not Affected

At first we thought that our business would be closed during this five-day period, but we have been informed that we are not termed as a manufacturing plant.

Importance of The Red Cross Being Realized

Woman of County Are Awakening to Their Duty as is Disclosed by Splendid Work Done by 16 Auxiliaries. Manilla Woman's Letters Sample of Spirit. State Headquarters Compliments Local Chapter on Quality of Work Done Here. Dozen Hustlers Organize.

Rush county women are awakening more and more to the importance of Red Cross work and showing their interest by work and results. All of the auxiliaries over the county, and there are sixteen of them, are doing splendid work and are gaining strength constantly. The large amounts of beautifully made supplies that are brought into the headquarters at the court house from the auxiliaries almost daily prove what the county women are doing.

As to the Manilla organization, a part of the letter received by Mrs. Cora M. Stewart, head of the auxiliaries of Red Cross, from Mrs. Jesse Shelton, chairman of the Manilla auxiliary speaks for itself. A part of the letter follows:

"Send us more work; we have several all day meetings planned ahead. We can make 40 garments a day. The women of this place are roused to the call for work as never before. Ever since our young men stepped out and showed their colors the women have realized the necessity of plunging into the Red Cross work as never before. And we are doing it too. I firmly believe that if the call came for women to shoulder the gun, every woman in Walker township would buckle on the accoutrements and never stop until she got to the front line trench.

"Send us fifty garments by tomorrow noon, sure."

Not only are the women accomplishing a great deal, but the standard of the work is high. Mrs. Phil Wilk, head of the sewing department recently received a letter from the secretary of the Red Cross supply headquarters at Indianapolis, Miss Kate C. Martindale, commending the women of the county for the beautifully made supplies. The letter read in part:

"Your three boxes arrived promptly and have proved to be quite up to the standard of work we have come to expect from Rush county. The garments are beautifully made always, and the surgical dressings are equally satisfactory."

And the women are original. They are reaching the top notch of efficiency by utilizing every speck of the material that is purchased. Only one of the incidents proving this is the latest accomplishment of the Dozen Hustlers, an auxiliary of the Red Cross in the southwestern part of the county.

Not long ago these women asked for something to do other than making hospital garments. Mrs. Stephen Kelly suggested at the headquarters that they make comforts by using the scraps that fall from the cutting table. Comforts made of scraps are not listed in hospital requirements but the scraps were given to these women with the instructions to make them into comforts for single beds. The understanding was that if the Red Cross headquarters would not accept them, they would be sent to the French Relief.

"Send them as fast as you can make them," was the reply from the headquarters of Red Cross at Indianapolis when the matter was presented to them. Since that time, the Dozen Hustlers have taken the scraps and returned them in nicely finished comforts, lined and interlined. The pieces that are too small to work into comfort blocks are clipped into tiny pieces and stuffed into the cases for pillows. The women donate the material for the cases making them of old muslin that cannot be otherwise used.

This auxiliary has turned in nearly 100 pillows in the past 2 months. Mrs. H. C. Webb is chairman of the Dozen Hustlers and Miss Lucile Priest is secretary. The women meet every Wednesday at the homes in the neighborhood.

Life has its little incongruities. Albert E. Nobel, who awards five prizes each year for the five greatest services performed for humanity, invented dynamite and made nine millions manufacturing it.

At the meeting of the Sunday school class of the Main Street Christian church, of which Mrs. Blanche Baine Rawlings is teacher, which was held last night at the home of Miss Phyllis Casady in West Tenth street, Miss Janet Dean was elected president of the class for this year. The other officers elected were vice-president, Phyllis Casady and treasurer Miss Helen Thomas. Following the business meeting the guests enjoyed a short social period and the hostess served a two course luncheon.

Local members of the Kappa Alpha Theta have received letters asking for subscriptions to the fund being raised to equip the nurses of one army hospital. The amount needed is \$3,800 and each Theta is asked to send \$1.75 toward raising the fund. One nurse's equipment costs \$58 and includes a white dress, blue woolen dress, coat, cape and hat. The sorority is responding quickly and enthusiastically to the call.

The regular meeting of the Harmony Club was held last night with Mr. and Mrs. Frank Flint at their home 218 West First street. Guests for four card tables were entertained and at the close of a pleasant evening the hostess served a two course luncheon. The next meeting will be held in two weeks at the home of Miss Flora Gutaphfel at the Beer House.

Mrs. Link Guffin of North Harrison street was hostess to the members of the Social Dozen yesterday afternoon at a pleasant meeting which was held at her home. At the close of the afternoon which was spent at knitting, the hostess served a two course luncheon. The next meeting of the club will be held in two weeks.

An opportunity will be offered on Monday evening by the Ladies Musical for everyone to enjoy a varied musical program and incidentally give a contribution to Red Cross. The musical to which everyone is invited will be in the sheriff's office at the court house, beginning at 7:30 o'clock.

Mr. and Mrs. Thomas Cauley will

entertain with a six o'clock dinner at their home in North Morgan street this evening in honor of Mrs. George Ferguson of Kansas City formerly Miss Mary Cauley of this city.

—Mrs. Willard Petro of Cambridge City was the guest of Mrs. Guy Abercrombie of North Perkins street today. Mrs. Petro is secretary-treasurer of the federated clubs of the sixth district.

All meetings of the Royal Neighbors lodge of this city have been postponed until February 25th. The lodge took this action in order to conserve the fuel supply.

Mr. and Mrs. J. K. Gowdy observed their fifty-first wedding anniversary at their home, 619 North Perkins street, yesterday.

With The Churches

—The services for the United Presbyterian church at Glenwood will be Sunday school at 1:30 and preaching at 2:15.

—Arlington and Franklin Methodist churches: Sunday services will depend upon the severity of the weather and the prospect of fuel. The pastor has arranged union services for Sunday afternoon and night, but circumstances may prevent this.

—First Baptist church, C. J. Bunell pastor, residence 612 North Morgan street, phone No. 19.11: Sabbath school, 9:30 public worship 10:45, subject for sermon, "Why Paul Spent Three Years in Arabia." Union services will be conducted at 7:00 o'clock in the evening.

—First Presbyterian church: 7:00 a. m., "Quiet Hour;" 9:30 Bible school; 10:30, patriotic service with special addresses and the presentation of the service flag. There will be no services in the evening because of the union services to be conducted at the First Baptist church.

—United Presbyterian church: Bible school at 9:30; preaching at 10:45. The Young Peoples Christian Union will meet at the church at six

War Mothers Be Enrolled In Congress

Mrs. John Blackledge Has Been Appointed County War Mother by State Council of Defense For National Organization of War Mothers to Have Chapter in This County.

Plans will be started soon for the enrollment of Rush county women who have given sons or husbands to the military service of the country, to become members of the National Congress of Mothers with a view to strengthening patriotism and creating bonds of sympathy.

It has been pointed out that men who have motherless sons in the service will be admitted to membership and that a fee of fifty cents will be charged for the purpose of carrying on the work of the local organization including the buying of wool and other materials for soldiers whose relatives have not the means of supporting their needs.

The county war mother or some one appointed by her will have charge of the enrollment of mothers. Mrs. John Blackledge has been appointed war mother for Rush county by the state council of defense.

o'clock. The congregation will join in the Union services to be held at the First Baptist church at 7:00 o'clock. There will be congregational prayer meeting on Thursday evening at 7:30.

—Services at the St. Paul's M. E. church for Sunday are as follows: Sunday school at 9:30 o'clock; morning worship at 10:30 o'clock. Sermon by the pastor on "What is a Good Methodist?" Junior League at 3 o'clock. Epworth League at 6 o'clock. Vocal duet by Mrs. George Wiltse and Mrs. Meri Wolcott. Union service at 7 o'clock at First Baptist church. Prayer meeting Thursday evening at parsonage.

MILROY INSTITUTE PUT OFF

The farmer's institute which was to have been held at the Milroy school house yesterday was postponed indefinitely because of the inability of the speakers to reach Milroy. Delayed train schedules and the bad condition of the roads prevented the speakers from reaching their destination. Herman F. Wilkie of the State Council of Defense and speakers from Purdue were to have been on the program.

Girls Receive Letters of Appreciation

Soldiers in Training at Camp Shelby And Camp Taylor Thank High School Pupils For Home Made Candy Sent Them at Christmas.

Letters of appreciation for the boxes of candy sent to them at Christmas time have been received by the members of the high school girls war relief organization from soldiers in the training camps at Hattiesburg, Miss., and Louisville, Ky.

Fifty-three boxes were filled with home made candy by the domestic science classes and were sent to the headquarters of the two cantonments to be given to soldiers who might not receive other Christmas remembrances.

The letters indicated that the candy had been distributed among the boys who were in the hospitals and many of the letters received were most touching, the writers inferring that but for the thoughtfulness of the Rushville high school girls their Christmas would have been "giftless."

GOES TO GREENFIELD TODAY

M. F. Dietrick Will Open Food Production Campaign There

County agent Marion F. Dietrick went to Greenfield today to aid in making arrangements for a meeting of the farmers of that community which will open the food production campaign. Mr. Dietrick was erroneously quoted in yesterday's paper as having said that if ten bushels of bad seed corn were used to the acre, Rush county's loss would equal one million bushels of corn. The statement should have been that if ten bushels to the acre were lost by the use of bad seed corn, Rush county's loss would equal a million bushels.

RED CROSS NOTES

The members of the colored women's auxiliary will have one table at the Red Cross headquarters tomorrow afternoon. Their original plan was to sew at the colored school but during the fuel shortage, the plan has been changed and they will sew at headquarters on Saturday.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

Days Pickings

Mrs. George Foster was operated on at the Dr. Sexton hospital yesterday morning for a tumor.

Jacob Gearhart has returned to his home after undergoing an operation at the hospital here.

A case of measles has been reported to the board of health. It is that of Mrs. W. Grocox of West Third street.

The Revs. John Machlan and J. J. Scull, both of this county, are both in the Methodist hospital in Indianapolis to undergo an operation.

Dr. C. E. Bacon of Connersville, district superintendent of the Methodist church, has gone to the Methodist hospital in Indianapolis to undergo an operation.

Charles E. Morris has filed an action in the circuit court against William McAldridge and a large number of other defendants to quiet title to some real estate.

Several employees of the local I. & C. traction company will attend the meeting of the agents of the company to be held in the general offices at Indianapolis on Sunday when the question of the new tariffs will be brought up for discussion.

The weather has caused several cases of illness in the Orange neighborhood, most of which are pneumonia and la grippe. Mrs. George Hay and Miss Harriet Dawson are suffering from pneumonia and Milton Long and Russel Coon are recovering from serious cases of pneumonia.

Denning Havens received letters this morning from Neff Ashworth and Al Sanagan, who has visited here frequently, both of whom are with the Lilly Base Hospital Unit. They reported a very exciting trip abroad and the fact that they expected to move to permanent headquarters soon.

Letters are received every day by Postmaster G. P. Hunt with the signatures unintentionally omitted. Many of these communications ask that mail be forwarded to a certain address. The address is given but without the signature and the postal clerks are helpless. These mistakes could be the fault of stenographers who mail letters without signatures as well as the sender of the letter.

John Gantner was appointed superintendent of the Rushville Supply Gas Company at the meeting of the stockholders held in the sheriff's office at the court house on Wednesday evening. He succeeds J. B. Pussey who will be asked to assist Mr. Gantner. The largest attendance recorded for a meeting of the company was that of Wednesday night when practically all of the stockholders were there.

Several communications have been received by Miss Anne Straight, visiting nurse asking her to enlist in the service as a war nurse. Miss Straight is going to Indianapolis within a few days to investigate the proposition and may enter the service. When she took the nurse's examination in November, authorities notified her that there was no immediate necessity of enlisting but conditions have evidently changed since that time.

FIRST TEACHERS EXAM.

The first teachers examination of the year will be conducted tomorrow in the examination room in the court house. A great many applicants for teachers licenses are preparing for the examination, according to the information received by county superintendent George. The examination will entitle those who pass successfully to teach in any school in the county or state, and will one of a series of examinations to be conducted the last Saturday in each month until October.

MANY ATTEND FUNERAL

Several from this city attended the funeral services of Charles Ketner held in Indianapolis yesterday after which the remains were sent to Louisville, Ky., for burial. Mr. Ketner was related in this city and was well known here, having visited relatives in this city frequently. The burial services will be conducted by the Elks lodge of which the deceased was a prominent member. John Beardon and daughters, the Misses Helen and Theresa, attended the funeral.

FIRST DRAFT COST THE COUNTY \$441.50

Continued From Page 1

Mr. Dearing registered here. The questionnaire of Joe Stewart, who was called for examination this week and failed to appear, arrived this morning, all filled out, from Akron, Ohio. He had been placed in class one for failure to return his questionnaire and his name had been given to the police.

An error was made yesterday in placing Carl Foust in class three. That was his original classification, but he was re-classified and put in one. An error also was made in placing Leonard Chadwell in class one because he is already in the service and has been put in class five.

Willie Andrews of Arlington, who has been passed and is ready to be inducted from the army, will leave Monday for Camp Green, Charlotte, North Carolina. He obtained the permission of the adjutant general to go and brought the proper credentials to the board. He will count in Rush county's quota.

They Are Going to Pull Hard For a Victory Over Connersville High School Quintet.

TEAMS ARE OLD TIME RIVALS

Thirty or forty rooters are expected to accompany the local high school basketball five to Connersville tonight for the contest and to cheer

ages have been ruled from above," it declared. "Now they rule themselves. They will stand and fight against all foes wherever found with full pride in the consequence of having contributed an immortal pain to the enemies of mankind.

"The government is not concerned with obtaining official recognition from foreign powers."

them on to victory. The local lads have put in a hard week of practicing, being forced to practice in the afternoons because of the early closing hours. One of the most spirited contests of the season is expected for tonight when the team meets the old time rivals at Connersville.

No special car has been chartered but the students will go on different cars this afternoon and evening and on the train.

LIEUT. GARTIN IMPROVES

Lieutenant Walter Gartin, who has been critically ill with pneumonia at a base hospital at Camp Taylor, Ky., continues to show signs of slight improvement according to the letter received by his father, J. W. Gartin, from Mrs. Gartin this morning, who is at the base hospital with her son. The letter was written yesterday morning and said that the doctors feel encouraged over his condition.

WANT ADS BRING RESULTS

In the Ranks.

The American House Manager is today a member of the army that is fighting to save democracy in the world. More than 11,000,000 managers of American homes have enlisted for the duration of the war and pledged themselves to support the fighting men by the way they buy, cook and serve food. Food will win the war, and these women will help to win it. America must send food to Europe. The armies cannot hold out if we fail to send it. Only certain foods

can be shipped—those that pack the most food value into the smallest shipping space. These foods are wheat, meat, fats, sugar. We cannot eat them and send them too. We cannot eat them and send others. We must send these foods, and in order to do that we must eat other foods ourselves. The American House Manager will see to it that no food comes into her home that does not do its full duty under her management in winning the war.

Mothers' Cook Book

In days gone by I filled myself With puddings, pies and cakes; I dearly loved all sweetened food, (I took a chance on aches) But nothing stayed my appetite When I came in from play Like bread smeared over with the jam That mother stored away.

Nuts as Meat Substitutes.

Nuts provide a most satisfying substitute for meat, as they contain both fat, protein and appetizing flavor.

Nut Croquettes.

Take one cupful of stale bread crumbs, a half cupful of milk, a cupful of nut meats, salt and pepper and a slightly beaten egg. Soak the bread crumbs in the milk. Add the nuts, season well, mix with the egg, mold, roll in egg and crumbs and fry in deep fat, or brown in a frying pan.

Enormous Power Wasted.

In the United States today we are developing about 46,000,000 horse power from steam and about 6,000,000 from running water. We are mining more than 400,000,000 tons of soft coal annually, to make steam, while the unharnessed water, merely running down hill, represents a possible horse power of 30,000,000. That is to say every 24 hours the potential but wasted water power in America is equivalent to 1,000,000 tons of coal—1,000,000 tons daily going to waste!—Minneapolis Journal.

JUST FOR FUN

You May Have Noticed. "Women of foreign lands have some outlandish customs as regards dress." "Not too outlandish for our girls to try out at least one season."

ABANDON PLANS TO OVERRUN PLAINS

Austro-German Armies Change Movements And Retire on The Piave River Westward

LOSES HOPE BREAKING LINE

London, Jan. 25.—Abandonment of the plan to overrun the Venetian plains appears to have been decided on by the Austro-German armies and is indicated in the retirement of the Piave river westward.

While the enemy holds his advance positions on both slopes to the Brenta river his voluntary evacuation of one of the chief lines of approach to the plain appears to indicate that he has given up hope of breaking through this winter, and the French are receiving a large measure of credit for this decisive setback of the enemy's plans.

When the French made their drive at Mt. Tomba some of the detachments were carried by enthusiasm through the Austro-German lines to the banks of the Piave river. They found the hamlets were deserted but it was believed this was incident to the day's operations and it was not then known that the region was being evacuated systematically by the enemy.

GERMAN HIT OWN MINES.

Copenhagen, Jan. 25.—The mine field responsible for the sinking on Sunday of the German destroyers A-73 and A179 was of German origin. The seventeen men from the crew of the A179, the only survivors from the two vessels, suffered greatly for four days on the open sea.

Union Meetings For Our Union

A Series of Five Union Sunday Evening Services beginning Jan. 27th at 7 p. m. and ending Feb 24th, the Methodist Episcopal, First Presbyterian, United Presbyterian First Baptist and Christian churches participating.

The Purpose of the Meetings

To clearly set forth the place, function and ministry of the church in this hour of world crisis and to inspire all to their utmost endeavor in patriotic service.

5 Sunday Evenings of Co-operation and Good Fellowship.
Great Patriotic and Religious Programs.
Inspiring Musical Preludes.
Protestant Churches Co-operating.
Tons of Coal Conserved Each Week.

All Meetings Held in the Baptist Church

Which is heated with wood.

All members of the above churches and the citizens of the entire community are urged to attend and support this series of services.

PRINCESSES---TONIGHT

GERALDINE FARRAR in

"The Woman That God Forgot"

By Jane Macpherson

Geraldine Farrar, the noted prima donna, will make her debut in the big spectacular photoplay written especially for her.

The story of a Princess who sells her country for the love of the man she loves.

One of the most massive sets ever made for a picture is a big pyramid 200 feet high with a stairway leading up to it on which one thousand people battle.

One of the most elaborately staged productions ever made. Massive settings, thousands of people, gorgeous gowns, beautiful women, startling battle scenes.

A picture that cost thousands of dollars.

XMAS GALA DAY AT ARMY CAMPS

Raymond Colestock Now in France
Writes Interesting Letter to
Mother Describing Holiday

HE EVEN WEARS WRISTWATCH

Mail For Soldiers Poured in to Re-
gimental Headquarters During
Days Preceding Christmas

"One does a lot of thing in war times which they would scoff at under other conditions," wrote Raymond L. Colestock of the expeditionary forces to his mother, Mrs. Nora Colestock, acknowledging the Christmas box which she had sent him which contained a wrist watch. "I would have been horrified if any one had suggested that I wear such an adornment at home but in soldiering they are necessary things and no matter how much we dislike the idea of wearing them, we all come to it sooner or later."

Private Colestock who is a member of the A battery of the 150th field artillery wrote an interesting letter describing his Christmas which with the remainder of the expeditionary was spent at some training camp in France.

"It was a novelty to see the mail pour into the regimental headquarters on Christmas eve and all day Christmas. A force of men and trucks worked day and night for some time before Christmas getting the packages distributed but notwithstanding this load after load of 'Christmas cheer' found its way to the American soldiers."

"Our battery had an entertainment Christmas eve after which the presents from the Christmas trees were distributed. The affair was staged in the mess hall which was attractively decorated with pine twigs, holly and mistletoe. Holly and Mistletoe grows profusely in the woods which adjoins our camp so a number of the soldiers were detailed to bring in an amount of it to brighten the hall."

"During the evening we had boxing, singing and black face comedy made up the program after which Christmas presents such as hobby horses, tin horns, drums and pop guns were distributed among the men."

"Christmas day we had a sumptuous repast. A turkey dinner with every delicacy available made up the menu. We ended our holiday by marching through the camp behind our regimental band giving yells, singing real American songs and celebrating in general."

Washington, Jan. 25.—One hundred and sixty thousand Turkish troops—more than 50 per cent of General Falkenhayn's reorganized Turkish army—deserted during the recent journey from Constantinople to Palestine, official dispatches today stated.

You May Find It In Stocking

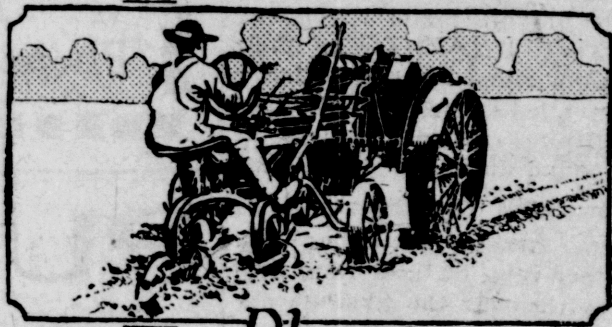

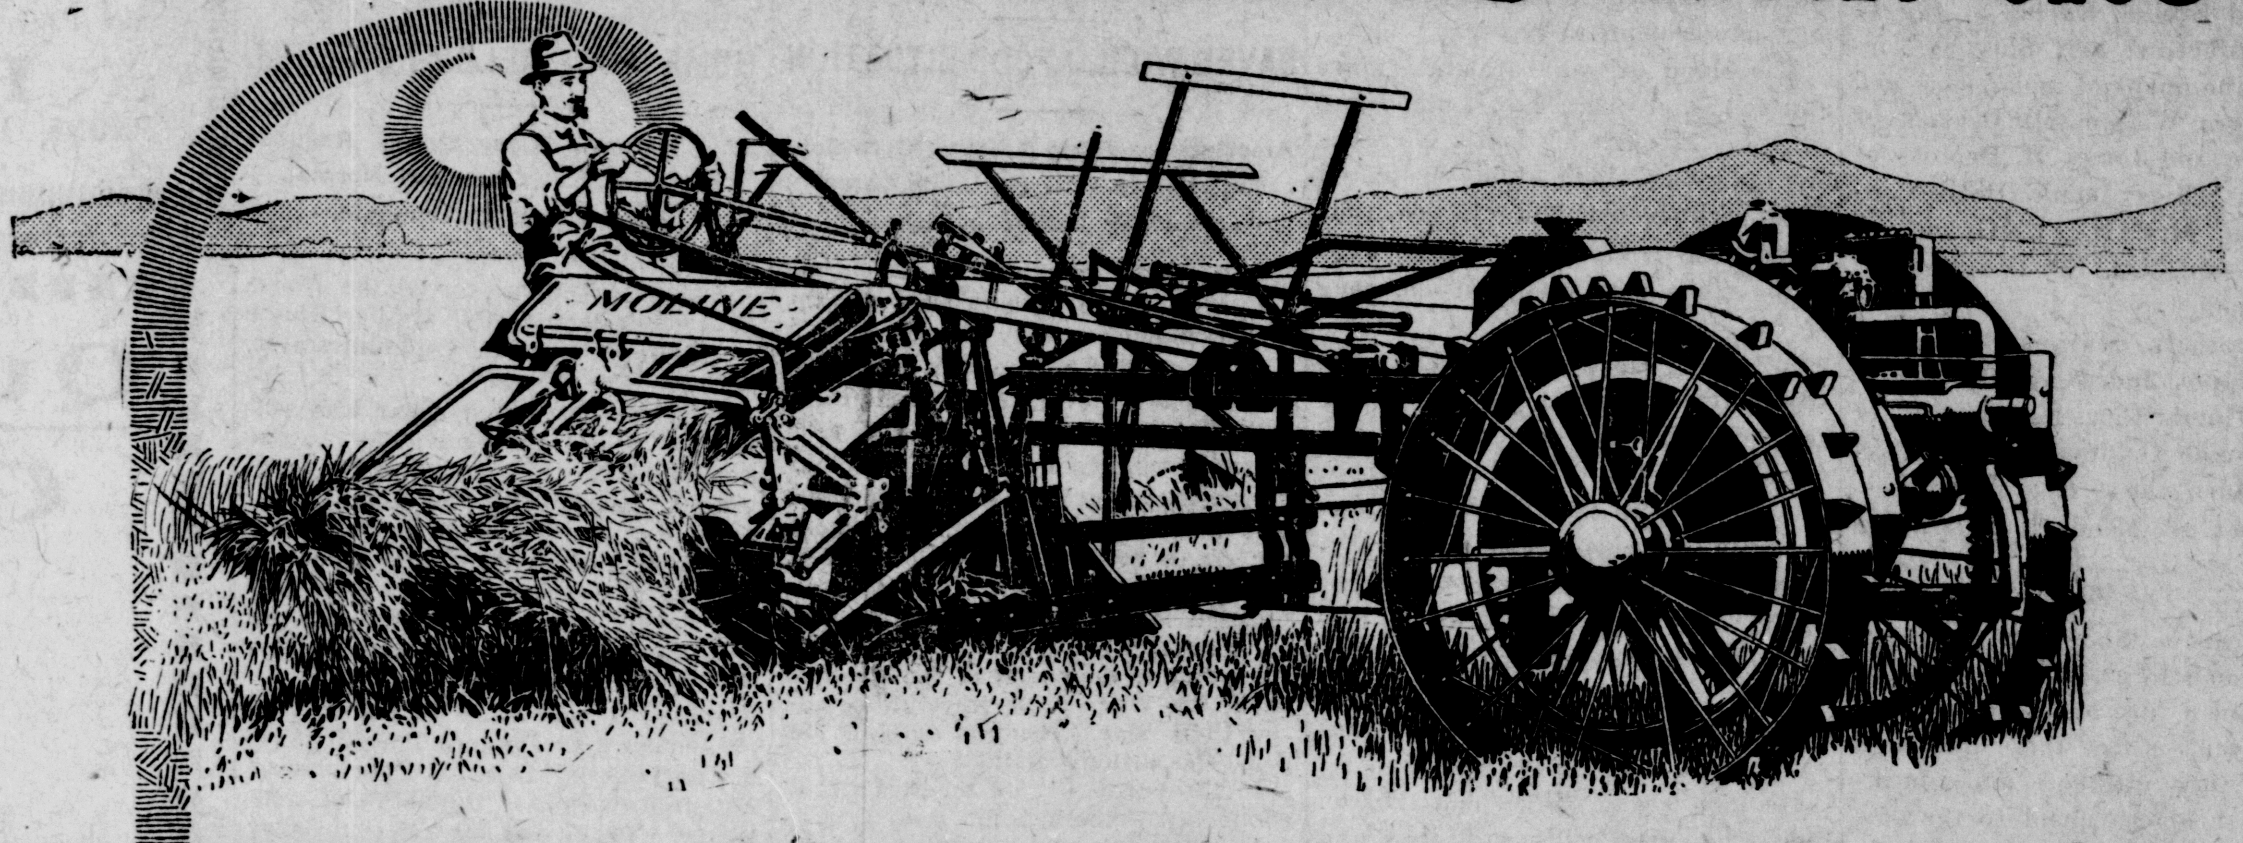

Cincinnati authority says your
troublesome corns just
loosen and fall off

Sore corns, hard corns, soft corns or corns between the toes just loosen in their sockets and fall off the next day if you will apply directly upon the corn a few drops of a drug called freestone, says a Cincinnati authority.

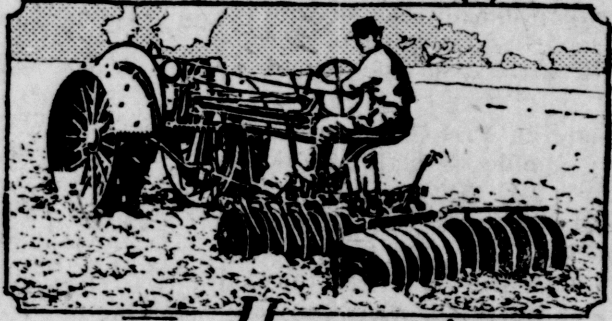

You merely put a drop or two of this freestone on the tender, touchy corn today and instantly the corn stops hurting, then tomorrow sometime you may find the old torturous pest somewhere in your stocking, having fallen off entirely without a particle of soreness, pain or irritation. The skin surrounding and beneath the former corn will be as healthy, pink and smooth as the palm of your hand.

A quarter ounce of freestone is sufficient to rid one's feet of every corn and callus, and any druggist will charge but a few cents for it. It is a compound made from ether.

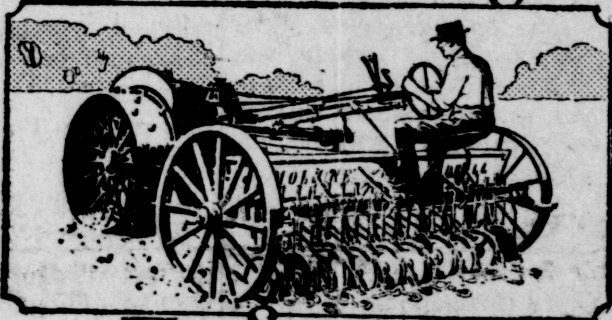

ONE MAN CAN FARM MORE LAND *with the*

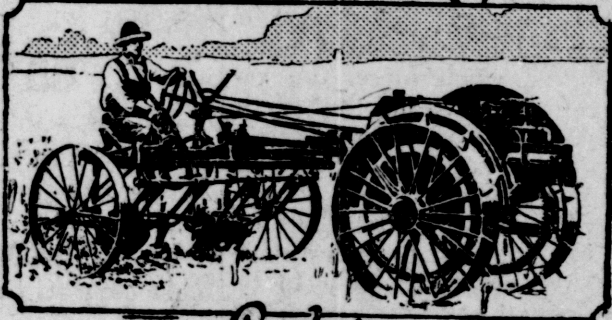

Plowing

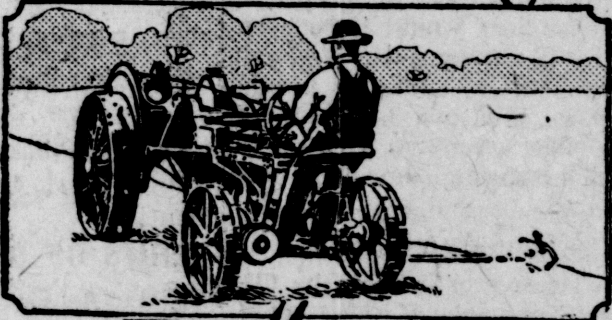

Harrowing

Seeding

Cultivating

Mowing

MOLINE UNIVERSAL TRACTOR

"It Solves the Farm Help Problem"

TWO MILLION MEN will be gone from the farms because of the war—strong, skilled, willing workers, only a small part of whom can be replaced by older men, boys and women. Yet production of food must go on. Production must be increased. There is only one way—equip the men left on the farms so they can do more work than ever before.

With the Moline-Universal—the original two-wheel tractor—*One Man* can farm more land than was ever before possible, because—*One Man* has power at his command equal to five horses, capable of doing the work of seven horses owing to its greater speed and endurance. This power is always available for any farm work.

One Man operates the Moline-Universal Tractor from the seat of the implement to which it is attached, where he must sit in order to do good work.

One Man can start in the spring and go from one operation to another—plowing, harrowing, planting, cultivating, mowing, harvesting grain or corn, spreading manure, filling the silo, cutting wood, etc., doing all farm work from one year's end to another, independently of horses or hired help.

A Compact Unit

All these one-man operations with the Moline-Universal are possible because it is mounted on two wheels, all its weight is traction weight; it is powerful—pulls two 14-inch bottoms easily—yet it is light so that it does not pack the soil. The Moline-Universal attaches direct to the implement, making one compact unit—the tractor forming the front wheels and the implement the rear wheels. *One man con-*

trols the entire outfit from the seat of the implement. It has 31 inches clearance—more than ample for cultivating.

A Woman Can Operate It

One woman or boy operates the Moline-Universal as easily as a man. Miss Ruth Harding of Albion, N. Y., a proud owner of a Moline-Universal, writes: "I have never called a man from his work to assist me with the tractor in any way."

Farmers, everywhere, recognize the Moline-Universal Tractor as the *logical* tractor, as the *best* tractor for all conditions, and as the *solution* of their help and power problems. It fits any size farm.

Thousands Now in Use

Thousands of Moline-Universal Tractors are now at work under every conceivable condition in all parts of the United States and in Canada, England, France, Sweden, Norway, Denmark, Russia, Italy, Spain, Mexico, Peru, Argentina, Brazil, Cuba, Guatemala, South Africa, Australia. Wherever a Moline-Universal Tractor is sold there is immediately a big demand for more.

The Largest Tractor Factory

The demand for Moline-Universal Tractors has far exceeded our expectations. We built an enormous factory which is devoted entirely to making Moline-Universal Tractors and three times have erected large additions to cope with the enormous demand. We now have the largest, best equipped, most thoroughly organized, most skillfully manned tractor factory in the world.

Moline sales and service branches cover the country. No purchaser ever is more than a few hours away from Moline service.

The Moline-Universal will solve your help and power problems. It is ready for you now. Write us today for free booklet giving full description of the Moline-Universal and name of your nearest Moline dealer.

LABOR SUPPORTS GEORGE
(By United Press.)

London, Jan. 24.—The labor party convention today granted support to the Lloyd George government by rejecting by vote of 1,885 to 777 the resolution demanding that labor parties in the coalition government withdraw at once.

Mrs. Wood Bishop has returned to her home after being operated on at the hospital for gall stones.

OBITUARY

Martha J. Ewbank was born March 4, 1848 in Decatur County near Greensburg, Ind., and departed this life, January 20, 1918, age 69 years, 10 months and 16 days, was Ewbank.

She was married to William DeMoss, Oct. 29, 1865. To this union was born 8 children, 2 died in infancy and Eveline Rachel at age 11 months, preceded her. She is survived by the husband and 2 sons and 3 daughters William M. DeMoss of Henderson and James M. DeMoss of Rushville. Miss Jennie DeMoss of Henderson, Mrs. B. E. Green of Rushville and Mrs. Ert Dearing of near Homer.

Two brothers, Marion Ewbank of Broad Ripple, Ind. and Milton Ewbank of Harris City, Ind., one sister Mrs. Caroline Oakley of Shelbyville, Ind., besides these 6 grandchildren and a host of friends to mourn her loss.

She was appreciated by her neighbors as a kind, helpful friend, in her home she was a tender loving mother and a true and faithful wife. She united with the Methodist church in her girlhood and continued a faithful member to the end, ever expressing her comfort and secret prayer. She was always willing to do any task however difficult for the comfort of those she loved and lived in abiding faith in her Savior.

OBITUARY

At 9:15 o'clock, Friday morning Jan. 18, 1918, John B. McCarty passed away at his home on Tenth street, Rushville, Ind., of which city he had been a resident 12 years. He was born in Madison Co., near Markleville, April 11, 1846, being 71 years, 9 months, 17 days at time of death. Mr. McCarty was the second child and eldest son of Benjamin McCarty and Angeline Cook, in a family of seven children, 5 boys and 2 girls, Mrs. Nancy Wischert, and Mrs. John Richmond of Middletown, Ind., Joel, Jasper and Ithamer McCarty all deceased, and Benjamin who lives in Washington state.

December 31, 1867 he was united in marriage to Mary Francis Mauzy, daughter of Mr. and Mrs. Peter Mauzy, residents of Madison Co., but later of Rushville, Ind.

Mr. McCarty was reared on the farm and engaged in farming near Markleville, where he lived 3 years then moved to Rush Co., to what is now the old Mauzy homestead four miles north of Rushville where he lived five years moving from there to a farm which he purchased near Greenfield where he resided until about 22 years ago, at which time he again moved to the Mauzy homestead, where he lived and was actively engaged in farming until about 12 years ago when he moved to this city where he continued to live until his death.

At the age of 23 he united with the Christian church at Markleville during a series of meetings conducted by the Rev. Martin Luther Blaney of which church he has been a faithful member, having his membership at the Main street Christian church at the time of his death.

To the marriage union were born 5 children, 3 sons and 2 daughters, Mrs. Robert Brooks, Greenfield, Greeley P. and Ithamer of this city, Carl R. of Dunreith and Mrs. Pearl Bell of this city. Mr. McCarty is survived by his widow, 5 children, 8 grand children and 1 great grand child to mourn his loss. He was a kind and indulgent father, always interested in the welfare of his family and always desirous of having them with him in the home, expressing disappointment if his children and those nearest him did not visit him often, preferring that to going into other homes to visit.

He was a loyal home man, being always interested in his home life and the comforts of the home.

As a husband, father, neighbor and friend he was always loyal and true. So, our hearts are sad today by the loss of this husband, father and friend and after life's duties he now sleeps and is at rest from all his labors.

Kindly in spirit and manly in life, we loved him and shall miss him. His earthly life is ended forever; never again will he be seen in the home where his children loved so often to go and spend the hours in pleasant association.

His voice is hushed in death, his tongue which in the last few weeks of his life was so tired from his dreaded disease is silent forever. Soon all that is mortal of our dear one will mingle with the dust. How

Stronger Men
Take the Lead

Vital force is the material from which leaders in all walks of life are made, it is well worth getting and holding.

The health and nerve of the athlete is what Nature intended every man and woman to have.

The blood of an athlete is pure and red, a strong heart pumps and drives it through his body. No wonder that every inch of his system is filled with energy and health, his nerves like iron, spirits high, hard tasks a pleasure and life one song of joy.

A leading Doctor says, "Everyone should feel this way. That if you are not red blooded, are nervous, all run down and on your last legs, for you to build up your blood and nerves with exercise, fresh air, nourishing food and Nature's great prescription Phosphated Iron a real blood and nerve builder."

Then you will be there with vim and push to easily do the work that you now do on your nerves alone.

He also says, "Phosphated Iron feeds the blood cells with iron and Nerve force, and that leading specialists are now using it successfully all over the country, that it has sprung into almost constant popularity with the better class of doctors as one of the few remedies they can depend on to produce results."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow dealers to substitute any pills or tablets.—PITMAN & WILSON and leading Druggists Everywhere. Rushville, Ind.—(Adv.)

shall the family and friends console themselves in the loss of his companionship? Why, in the fact that death is not the end of life but only a step higher, out of the mortal into the immortal. Because to depart and be with Christ is far better," for one who has finished his work and who is so deserving of the rest that is promised to all those who believe in him.

Father, we bid thee farewell on earth. We now consign thy body, to the cold, cold ground, but we shall meet thee beyond the river—for blessed are the dead who die in the Lord.

The words of the past so beautifully express the life and departure of our dear one:—

Sunset and evening star,
And one clear call for me,
And may there be no moaning of the bar

When I put out to sea.

For such a tide as moving seems asleep,
Too full for sound or foam,
When that which drew me out the boundless deep

Turns again home.
Twilight and evening bell,
And after that the dark,
And may there be no sadness of farewell,

When I embark.
For tho' from out this flood of Time
And Place,
The flood may bear me far,
I hope to see my pilot face to face
When I have crossed the bar.

27011.

BIG CORN CROP
IS NOW MOVING

More Than 3,000 Million Bushels Raised in 1917—Gives Big Surplus.

SAVES WORLD FOOD SITUATION

America Beginning Greatest Corn Consumption in History, Using Cereal in Many Delicious Dishes.

Corn, America's greatest cereal crop, is now moving rapidly to market.

More than 3,000 million bushels—30 bushels for every man, woman and child in America—were raised in 1917. It was a mighty crop. The actual increase is about 500 million bushels. And this extra store of grain is coming on to the market in the nick of time, since the American wheat surplus has been sent to help feed famine threatened Europe.

Just as it happened in the Colonial days, the War of the Revolution, and the Civil War, corn has actually become the nation's mainstay.

In the entire list of America's food commodities there is no item that is better than corn. In puddings, bread, corn pone, and as hominy combined with meat or eggs, corn is without a peer. Housewives are fast learning the large number of delicious dishes that may be made with corn and their families are benefiting by an increased use of the cereal. Corn, more than any other cereal, contains all of the elements essential to maintaining life and health.

In order that the fighting men abroad and in the army camps at home may be fed, and in order that actual famine may be kept from the nations associated with America in the war, the citizens of America are finding corn products delicious and palatable on "wheatless days" and glory in the fact that "wheatless days" here mean more wheat for the war worn allied nations in Europe.

England, France and Italy must be fed from America's great storehouse. They will get some corn—especially Italy—but most of their grain shipments must be wheat. Their ability to use corn is small compared to the facilities they have for using wheat. And it is the opinion of officials in Washington that the present is no time to try and change the eating habits of Europe.

America's greatest use of corn will be in the form of corn bread and corn meal, mixed with wheat in the making of leavened bread.

Mixed with 80 per cent. wheat flour, corn meal can be used in bread making, producing a loaf more nutritious than bread baked with wheat alone. It is a fact corn millers will verify that dozens of the large American bakers have been successfully using a corn flour in bread making for several years.

Hominy grits, served at breakfast with a poached egg, or eaten at any other meal with meats or gravy, is another use of corn that will become unusually popular during the war.

Corn syrup to sweeten corn cakes, and corn oil for use in all kinds of cooking, are two more products that are already welcomed in thousands of American homes.

THE UNITED STATES FOOD ADMINISTRATION SAYS:

Food saving is in its essence the daily individual service of all the people. Every group can substitute, and even the great majority of thrifty people can save a little—and the more luxurious elements of the population can, by reduction to simple living, save much.

This means no more than that we should eat plenty, but wisely and without waste.

Food Will Win the War

LARGE part of the world is coming to the position that Belgium is in; coming to the stage where the primary and important thing in life is enough food to keep alive.

Food has now taken a dominant position in the war. The American people must prepare themselves to sacrifice far more than was at first thought necessary.

The cold facts are: France, Italy and England have just enough food to keep them going ten or twelve weeks. When America's food shipments stop—the allied nations begin consuming into this slender store and begin a swift march into actual famine conditions—which would mean defeat in short order.

Europe then must live on America's surplus. Your saving increases our available stocks just that much and actually feeds some person in the countries with which we are associated in our war against the Central Powers.

Our surplus wheat has already been shipped to the allies.

U. S. FOOD ADMINISTRATION

SUGAR CONTROL
SAVED MILLIONS

American Consumer Profited by \$180,000,000—French Situation Helped.

HOME PRICE HELD AT 9 CENTS.

This Nation's Sugar Supply Reduced to Seventy Per Cent. of Normal. Java Stocks Unavailable.

Sugar control has saved the American public \$180,000,000, Herbert Hoover, United States food administrator, declared the other day.

He pointed out that sugar was selling for 11 cents a pound last August and that it would have advanced to 20 cents a pound, with the world shortage as a stimulus, had not the food administration secured the co-operation of the refiners and wholesalers and fixed a sugar price that today enables housewives to buy sugar at from 8½ to 9 cents a pound.

"Every 1 cent raise in sugar from September 1 to January 1 means \$18,000,000 to the American consumer," Mr. Hoover said. "Numbers of gentlemen will tell you that 20 cent sugar would have prevailed and the public robbed of \$180,000,000 this year if we had not taken these actions." Later Mr. Hoover called attention to the fact that uncontrolled sugar advanced to 35 cents a pound during the Civil War.

France Got Our Sugar.

Today the American public has been allotted 70 per cent. of its normal supply. Before the war the average annual household consumption here was 55 pounds a person. In England the annual consumption during the war is 24 pounds, and in France each person is allotted a little over one pound a month.

"In August the French government found itself unable to maintain even this ration," Mr. Hoover declared. "An appeal was made to America. France needed 100,000 tons. We agreed to fill this demand and up to December had shipped 85,426 tons. In the meantime an appeal was made to the American public to reduce its sugar consumption, and requests were made to distributors to supply the confectionary and sweet drinks trade with 50 per cent. of normal supply. This has been generally followed, although such regulations were voluntary, as the food administration had no authority to impose them."

Domestic Price is 8½ to 9 Cents.

Retail grocers throughout the country are supposed to take a profit of no more than 50 cents a hundred—half a cent a pound—on sugar. By reason of food administration regulations, binding refiners and wholesalers, the retailer is able today to buy sugar at from 8 to 8½ cents a pound. This enables him to sell to the housewife at 8½ to 9 cents a pound.

There have been some violations of the sugar rulings. Mr. Hoover said recently: "Sales of sugar from 16 to 20 cents per pound have been reported and followed up vigorously and stopped and is evidence itself of the prices at which consumers would have been mulct had we not intervened. We have forfeited wholesalers' licenses in aggravated cases, and we have issued warnings to first offenders in a great many instances through our local administrators."

Effect on Military Situation.

American sugar stocks could be filled to normal very soon if ships could be sent to Java, where 250,000 tons of sugar is waiting for shipment. But the shipping situation is so acute that the nation cannot spare the eleven ships needed to transport this sugar. It would take the boats one year to haul 250,000 tons. In the same time they could be used for transporting 200,000 soldiers to France.

The food administration believes that the American public will diminish its sugar consumption by 10 or 15 per cent. when it is made clear that such sugar saving is a patriotic act and when it is understood that there are plenty of sweeteners available to take the place of sugar, such as honey or corn syrup.

Why Shortage Exists.

The three great sugar producing centers of the world are Germany, the West and East Indies. German sugar is, of course, used at home. The East Indian sugar is unavailable because of the ship shortage.

While U boats made big inroads on the world's shipping, France and Italy ceased to be self sustaining in sugar manufacture. England in the meantime was cut off from German sugar—1,400,000 tons a year—because of the war. The result has been that the allied nations have been forced to turn to America and the West Indies for their sugar.

EVADE RIGID FOOD CONTROL.

Food is Bought in Germany Surreptitiously in Violation of Auto-crate Rulings.

Even the autocratic food control of Germany has been powerless to prevent surreptitious sales, according to semi-official reports reaching the United States food administration. Illegal sales of butter are being made in Germany at prices ranging from \$1.75 to \$2.25 a pound. Eggs sold contrary to the German food regulations are bringing 10 to 15 cents apiece, according to these reports. And bacon or ham is bringing from \$2.25 to \$3.25 a pound.

GRADE and LABEL

is the next government move. Some are selling low grades at higher prices. We still have the same label and high grade and our prices compare with the low grades. Then why buy something you know nothing about.

WAR AND WOMEN

We hear much these days of what the women are doing on the battle line. How few American women are strong enough to go to the front and endure the hardships of the men!

Help is offered, and is freely given to every nervous, delicate woman, by Dr. Pierce's Favorite Prescription. Remember ingredients on label. No alcohol. In tablet or liquid form. All druggists. Tablets sell for 60 cents.

In "female complaint," irregularity, or weakness, and in every exhausted condition of the female system, the "Prescription" seldom fails to benefit or cure. Pains, internal inflammation and ulceration, weak back, and kindred ailments are cured by it, ask your neighbor. It's a marvelous remedy for nervous and general debility, insomnia, or sleeplessness.

Write Dr. Pierce, Pres. Invalids' Hotel, Buffalo, N. Y., for confidential advice and you will receive the medical attention of a specialist, wholly without fee—no charge whatever. Send 10c for trial pkg. "Favorite Prescription Tablets."

LAPORTE, IND.—"When approaching middle life I suffered severely. I had never before suffered with any sort of womanly weakness and I was very much afraid that the critical time would go hard with me, but one bottle of Favorite Prescription completely removed my pains and

the change came on so easily that I was scarcely conscious of it. It is fifteen years since I took the 'Prescription' and I am just as strong and well as can be and have never had the least sign of weakness since.—Mrs. S. J. BAKER, 916 Scott St.

DOCTORS ARE CAUGHT IN DEEP SNOW DRIFTS

Banks Are so High on Country Roads That Physicians in Making Country Calls Have Trouble

10 MACHINES IN ONE PLACE

The doctors of the city appreciate to the fullest extent the condition of the country roads. Some of them have been "stuck" in the snow drifts before reaching their destination and others have been forced to turn around and return without reaching their calls. One night late, Dr. D. D. VanOsdol started out toward Gings. He was caught in the snow storm and together with 10 other machines on the country road was held up there. He returned to this city and had to make the trip with a horse and buggy.

Dr. Wooden left yesterday morning at 2 o'clock, going northeast of the city. Seeing he could not reach the country home to where he was called he tried to turn his machine, which was stuck in the ditch. He had to walk to town for aid and get a horse and buggy to reach the home of the patient.

Dr. J. E. Walther of Glenwood in answering a call south of Glenwood Thursday evening was caught in a drift at about 1 o'clock in the night. It was impossible for him to get the machine out alone and he was forced to walk to Glenwood for help.

EARLY HOURS HELP LIBRARY PATRONAGE

Number of New Cards Taken Out by Persons Who Have Not Before Taken Advantage of Library

IDLERS ARE URGED TO USE IT

Early closing hours at the schools and in the business houses means a better patronage at the public library. On Monday, when a number of concerns were closed, many patrons took out new cards that had never before taken out books and many more took out books on cards that had not been used for some time. Miss Mary Sleeth, head librarian, urges that everyone take advantage of the opportunities offered in the library and spend their idle hours there. On Mondays when business places are closed and on Tuesday when the moving picture houses are closed, the library offers an excellent diversion.

If it becomes necessary, Miss Sleeth stated today that she would gladly keep the library open on Monday and Tuesday evenings, if persons believed the value obtained would pay for the light consumed.

THREE STEAMERS SUNK

London, Jan. 25.—Two steamers sunk in the Mediterranean about December 31, caused a loss of 718 lives. Under Secretary McNamara announced today; also that a ship was sunk at the mouth of the Mersey with a loss of 40 lives.

Eats 3 Meals Each Day Now

Woman Tells How Tanlac Put Her Stomach Back in Good Shape

"It used to be that everything I ate would lay like a heavy weight in my stomach but since I've been taking Tanlac I can eat three good meals every day and enjoy them," said Mrs. E. L. Persons, 936 North Illinois street.

"My digestion was bad. I had to take a cathartic often I had headaches a lot and I was getting pretty nervous. It was hard for me to get to sleep at night. I'd just turn over and over and often it would be way in the morning before I could get to sleep at all.

"My landlady told me about Tanlac and finally I decided to try it. I've taken four bottles of Tanlac now and I tell you I look like a different person. My stomach is back in fine shape and I eat three good meals every day and enjoy them. I sleep well at night now, too, and I'm getting so I feel a lot stronger than I used to."

If you are not feeling right get Tanlac today at F. E. Wolcott's drug store.—(Adv.)

BIG HERDS GONE

World War Wastes Europe's Meat Supply.

American Stock Raisers Co-operate With Food Administration in Conservation Measures.

It is probable that Europe for many years after the war will look to a great extent to America for its meat supply.

Europe's herds are dwindling under war's demands faster than they can be replenished.

When the German armies retired from occupied portions of France and Belgium approximately 1,800,000 head of cattle were appropriated. This addition virtually safeguarded Germany from cattle shortage other nations now suffer.

In England some 2,400,000 acres of grass lands have by compulsory measures been forced into grain production, thus reducing pasturage and hay lands. A declining scale of maximum meat prices for live cattle was ordained in England, as follows: For September, \$17.76 per hundred pounds; October, \$17.28; November and December, \$16.08, and for January, \$14.40. The evident intent of this measure was to drive the beef animals into market as soon as possible.

According to official French figures, the cattle of France have decreased to a total of 12,341,900 as compared with 14,807,000 in 1913. Today, due to lack of forage principally, France is producing only one gallon of milk where before the war two and one-half gallons were produced.

Meantime the United States food administration has taken steps to conserve our flocks and herds and to increase their numbers. The stock breeders of this country show a disposition to co-operate with the government in this.

For many years it has been a practice among many of the dairy people of this country to kill male calves at birth and in many instances the females if not needed to replenish their herds rather than go to the expense of maturing them into veal. The high prices of meat caused the virtual discontinuance of this killing. Another encouraging fact is 75 per cent. of calves killed for veal this year were males.

Somebody has very aptly said that the wars of the world have been won with grease, meaning that bacon and lard have been as essential to success in war as powder, which is true.

The hogs of Europe have been very greatly sacrificed to present day needs. This makes the American burden all the more heavy and makes doubly essential an increased pork production in this nation. In Italy grain is now forbidden to be fed to hogs. In Denmark under a recent order one-fourth of the hogs were ordered to be killed. It is estimated that one-half have now been killed.

SEIZURE OF HOUSEWIVES' FOOD STOCKS IMPOSSIBLE

The government has never considered any plan of seizing foodstuffs owned by householders. Nor is there any policy of this kind suggested for the future.

In spite of this fact, the United States food administration has been obliged repeatedly to issue official denials of rumors that the government intends commandeering preserves and canned goods put up in American homes.

These rumors were originated partly by pro-German propagandists and partly by conscienceless grafters, who sought to profit through buying from misinformed housewives.

The year 1918 will see home canning and preserving practiced on greater scale than ever before in the nation's history, officials in Washington believe. And they are assuring all patriotic housewives that foods so saved are theirs, and theirs alone.

NUTRITIOUS CORN BREAD.

One New York hotel has arranged a thoroughly patriotic corn bread recipe. It combines cornmeal with rye flour, both of which are being consumed in greater quantities this year in order to release wheat flour for the allied nations. This recipe fills a large pan—16 by 22 inches—and contains the following ingredients: One quart milk, four ounces butter substitute, ten ounces light syrup or honey, three eggs, pinch salt, two pounds cornmeal, one pound rye flour and two ounces baking powder.

The butter and syrup are thoroughly mixed. Then add the eggs gradually, pour in the milk, then add the rye flour mixed with the cornmeal and baking powder. Bake in a hot oven.

COMPARISON

Somebody has said that comparisons are odious—THEY ARE NOT SO TO US. We INVITE comparison, both as to price and quality, of our choice line of

DOUBLY PROVEN

Rushville Readers Can no Longer Doubt The Evidence

This Rushville citizen testified long ago.

Told of quick relief—of undoubted benefit.

The facts are now confirmed. Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit.

Harrison Levi, 931 N. Sexton St., says: "I used to have to get up six or seven times each night on account of the too frequent passages of the kidney secretions. Often the secretions were scanty and they caused pain in passage. Nothing ever did me any good until I began taking Doan's Kidney Pills, which I got from Johnson's Drug Store. It didn't take them long to fix me up, the pains left and my kidneys again acted regularly."

OVER THREE YEARS LATER, Mr. Levi said: "I am glad to confirm my former endorsement of Doan's Kidney Pills for they have given me a permanent cure."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Levi had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—(Adv.)

NON-RESIDENT NOTICE.

The State of Indiana, Rush Co., ss: In the Circuit Court of Rush County, State of Indiana.

November Term, A. D., 1918.

Charles E. Morris vs. William Mc Aldridge et al. Suit to quiet title to real estate.

Be it known that on this 23d day of January, in the year 1918, the above named plaintiff, by Chauncey W. Duncan, his attorney, filed in the office of the clerk of the Rush Circuit Court, his complaint against the defendants in the above entitled cause, together with an affidavit of a competent person that said defendants, William Mc Aldridge, the heirs, devisees, legatees, next of kin and legal representatives of William Mc Aldridge, deceased, whose names are unknown; Mary M. Aldridge, wife of William Mc Aldridge, deceased, whose christian name is unknown; the heirs, devisees, legatees, next of kin, and legal representatives of Mary M. Aldridge, deceased, wife of William Mc Aldridge, whose names are unknown; Nathan T. Aldridge, the heirs, devisees, legatees and next of kin and legal representatives of Nathan T. Aldridge, deceased, whose names are unknown; ———— Aldridge, the wife of Nathan T. Aldridge, whose christian name is unknown; the heirs, devisees, legatees, next of kin and legal representatives of ———— Aldridge, deceased wife of Nathan T. Aldridge, whose names are unknown; Mahala Thrasher, the heirs, devisees, legatees, next of kin and legal representatives of Mahala Thrasher, deceased, whose names are unknown; Samuel Thrasher, husband of Mahala Thrasher; the heirs, devisees, legatees, next of kin and legal representatives of Samuel Thrasher, deceased, whose names are unknown; Charles M. Aldridge, the heirs, devisees, legatees, next of kin, and legal representatives of Charles M. Aldridge, whose names are unknown; Mary C. Aldridge, the heirs, devisees, legatees, next of kin, and legal representatives of Mary C. Aldridge, deceased wife of Charles M. Aldridge, whose names are unknown, are not residents of the state of Indiana.

Said defendants are therefore hereby notified of the filing and pendency of said complaint against them and that unless they appear and answer or demur thereto, at the calling of said cause at the court house, in the city of Rushville, Rush county, and state of Indiana, on the——day of March, 1918, said complaint, and the matter of things therein contained and alleged, will be heard and determined in their absence.

Witness, the Clerk and Seal of said court, this 23d day of January, 1918.

How Much Food Does a Family Need These Days?

(From the United States Department of Agriculture.)

At a time when it is imperative that as much food as possible should be raised and as little as possible wasted, the housewife needs to know how much food is really necessary for the preservation of bodily health and how much is eaten merely to please the appetite.

To ascertain the correct answer to these questions in the individual case would involve an amount of figuring which it is hardly likely that the ordinary woman would care to undertake. Obviously the amount of food varies with the kind of work that the person does, and children require a somewhat different ration, more abundant in some respects and less abundant in others, than adults. For practical purposes, however, it is quite possible for the housewife with a little thought to furnish meals that approximate at least the quantity which the health of her family requires.

In Farmers' Bulletin 808, "How to Select Foods," the following materials are suggested as one of the many combinations suitable for a day's ration for a family consisting of a man and a woman who do moderately hard muscular work, and of three children between three and twelve years old:

Four and one-half pounds of bread, having the same food value as three pounds of wheat or rye flour, oatmeal, cornmeal or hominy, or rice; or about 2 3/4 pounds of cereals and five or six medium-sized potatoes.

Three-fourths cupful of fat (butter or butter with oil, beef drippings or other fat)—a weekly allowance of 2 1/2 to 3 pounds.

A little more than one cupful of sugar, or a weekly allowance of four pounds; or an equivalent amount of some other sweet.

Four pounds in all of fresh fruits and fresh or root vegetables.

One of the two following, the choice depending on the age of the children: Three quarts of milk and one pound of other foods taken from the meat and meat-substitute group.

Two quarts of milk and 1 1/2 pounds of other foods taken from the meat and meat-substitute group.

In these materials bread and other preparations of cereals play an important part. This is because such foods are wholesome and economical, whether the cereal is used as a breakfast dish, as flour or meal in bread and cakes, or in other ways. An equally nourishing and wholesome diet might be planned which would contain less cereal, but this would make it necessary to increase the amount of more costly foods, such as meats, fruits, vegetables and sweets. To make a ration in which cereals play such an important part attractive, however, it is necessary that they be prepared with care and with the exercise of some ingenuity to secure variety in flavor. For example, rice, macaroni and hominy can often be made more appetizing and nutritious by combining with them small amounts of materials which have

more distinctive flavors. Among these are meat and cheese, and onions, tomato and other seasoning vegetables.

As an illustration of the way in which the materials already mentioned may be utilized for a family's daily meals, the bulletin suggests the following combinations. These, it is pointed out, are merely suggestions, and other equally nutritious and economical combinations may be made which seem more attractive to the individual's tastes.

Sample Meals for a Family.

(Man, woman and three small children.)

BREAKFAST.

Fruit, 1 1/4 pounds of fresh fruit (equivalent to three medium-sized oranges, five small apples, or a quart box of strawberries), or three or four ounces of dried fruits (equivalent to ten or twelve dates or four or five figs).

Cereal breakfast food, four ounces before being cooked, or about 1 1/2 pints after it is cooked. The equivalent in food value in puffed or flaked, ready-to-eat cereals would be five or six cupfuls.

Milk on cereal, one-fourth cupful for each person.

Sugar on fruit, on cereal, or in coffee, 2 1/2 level tablespoonfuls or 1 1/4 ounces.

Bread, eight slices, or eight ounces. Butter, 1 1/4 ounces, or 2 1/2 cubic inches.

An egg or two ounces of meat, fish or poultry for each older person, and a glass of milk for each young child.

DINNER.

Meat, or fish, one-fourth pound per grown person; or, for each child, an egg or a glass of milk.

Potatoes (five medium sized), 1 1/4 pounds.

Another vegetable (turnips, spinach, corn, cauliflower, or other), one pound.

Bread, eight slices, or eight ounces. Butter, 1 1/4 ounces, or 2 1/2 cubic inches.

Steamed apple (or other fruit) pudding. (Ingredients: Two cupfuls flour, two tablespoonfuls butter, three-fourths cupful milk, four apples, one tablespoonful sugar.)

Sauce. (Ingredients: One-half cupful sugar, 1 1/2 tablespoonfuls flour, two teaspoonfuls butter, one-fourth cupful water, flavoring.)

SUPPER.

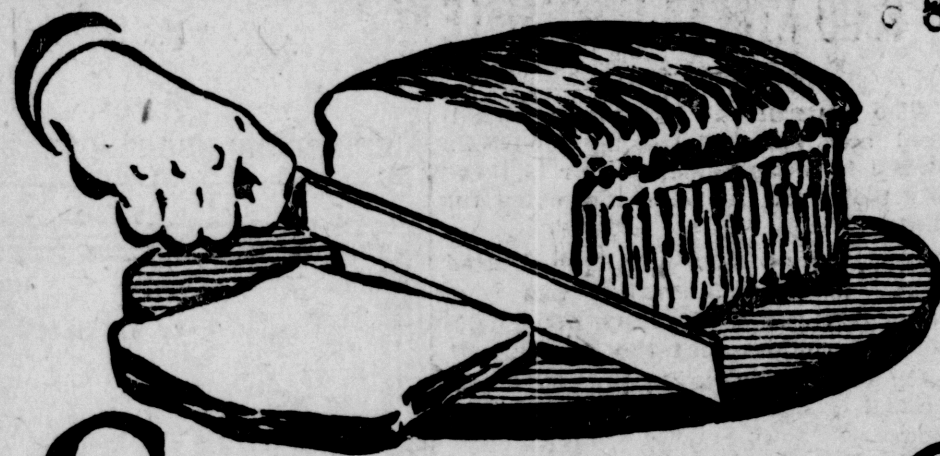

A gravy made out of one pint of skim milk, one-fourth cupful flour, two level teaspoonfuls butter and four ounces salt or smoked fish (just enough for flavor). To this can be added the egg yolk left from the frosting of the cake. (See below.)

Rice, eight ounces, or one cupful, measured before being cooked.

Bread, eight slices, or eight ounces. Butter, 1 1/4 ounces, or 2 1/2 cubic inches.

One-half of a cake. (Ingredients for whole cake: One-fourth cupful butter, one-half cupful sugar, one egg, one-half cupful milk, 1 1/2 cupfuls flour, 2 1/2 teaspoonfuls baking powder.)

Frosting made with one egg white and one-fourth cupful sugar.

Save a loaf a week help win the war

HASTENED RUSSIAN COLLAPSE

"We must not overlook the fact that Russia collapsed, not because of the Germans on her borders, but because she failed to organize and feed her own citizenship," the food administration announced.

"We must be warned that if we are to emerge victorious from this war we cannot risk the collapse of another of our associates in this war from this cause."

"Anybody that is looking for the collapse of the German people on the food question had better turn around and look at the moon, because the results will be the same. Germany is in no more danger of collapsing on that score than we are, if as much."

WHY WE MUST SAVE FOOD.

The 1917 wheat crop in France was less than half normal, using the crop of 1913 as a basis of comparison. There was a shortage of 176,000,000 bushels, or 53.3 per cent. The potato crop was only within one-third of normal. The sugar beet crop showed a deficit of 67.9 per cent. Her meat herds in the early fall showed a shortage of 1,800,000 animals.

Those are a few of the reasons America must feed her associates in the war. They are no longer able to feed themselves, and unless we come to the rescue are face to face with starvation. And starvation means defeat in the war.

Oliver Chilled Plow Works

Indianapolis, Indiana, Jan. 19, 1918.

Mr. John B. Morris,
Rushville, Indiana.

Dear Sir:—No one can tell at this time what the situation is going to be in regard to making shipments later on in the season, nor can we tell whether or not we shall be able to get all the material necessary to furnish all of the parts required to take care of your requirements.

In order to protect you and your customers, as well as ourselves, to as great an extent as possible, we should like for you to see that your farmer customers order from you, and you from us, such repairs as may be necessary to put their tools, where they are to be repaired, in first class condition, ready for use; also spares and other parts that will be needed from time to time during the plowing, seeding and cultivating season.

Very truly yours,

OLIVER CHILLED PLOW WORKS
C. F. ROGERS, Manager

The above letter has been received by me direct from the manager of the Oliver Chilled Plow Works, and explains very thoroughly the present situation. Your orders are solicited.

WEATHER

Fair, cold wave tonight.
Saturday fair, colder.

ESTABLISHED AS A WEEKLY: THE WEEK, 1940: THE REPUBLICAN, 1941

"The Newspaper Everybody in Rush County Will Eventually Read."

CHANGED TO SEMI-WEEKLY MAY 1933; DAILY MARCH 1944

Vol. 14. No. 270.

Rushville, Indiana, Friday Evening, January 25, 1918

TWELVE PAGES TODAY

FORECAST SHATTERS FALSE HOPE

Aroused by Warm Weather Today
But Depressed When Prediction of
Cold Wave Tonight Arrives.

ROADS ARE IN BAD CONDITION

Rural Carriers do Not Attempt to
Deliver Mail After Experiences
of Yesterday

MANY PULLED OUT BY TEAMS

One Car of Coal Arrives For Dom-
estic Use and County Receives
Two Cars This Morning

False hopes aroused today by the warmest weather in more than two weeks, which promised to relieve somewhat the serious fuel situation, were shattered when the weather forecast for a cold wave tonight came from the Indiana weather bureau in Indianapolis.

It was just two weeks ago this afternoon when the blizzard which was the forerunner of the coldest weather in Rush county in thirty-four years, began and up until today the temperature has never been above freezing.

Another car of coal arrived today, being received by John P. Frazee, and indications were that it would be sold just as fast as it could be unloaded. The two car loads of coal received by Reed and Son were all sold yesterday. Dealers are expecting more coal very day, but there is no assurance when it will arrive.

The court house, which was on the verge of closing yesterday for the lack of coal, was literally rolling in coal today. Two car loads arrived this morning. Closing of the court house was averted yesterday by the loan of eight tons by the city, and this will be paid back by the county out of the two cars reaching here today.

If the weather man's prediction comes true tonight, the fuel situation will be as acute as ever because the demand of consumers does not seem to be supplied yet by any means.

A cold wave holds no terrors for people any more after the experience which they have undergone in the last two weeks. With few exceptions the mercury has gone below zero every night and has never been above thirty-two degrees at any time during the day. In strange contrast to this, street thermometers today were registering fifty degrees above zero and the snow was melting rapidly.

People from the country reported the roads in a terrible condition. The snow was melted enough to pack on vehicles and make travel very difficult.

Rural mail carriers except the one on rural route No. 1 did not leave the postoffice today after their experiences yesterday in trying to deliver the mail. They found the roads worse yesterday than they had been at any time in the last two weeks and telephone calls to patrons this morning brought the information that the roads were just as bad if not worse than yesterday. For this reason the postmaster instructed the carrier not to attempt to deliver the mail. None of the carriers got over their routes yesterday though some of them delivered all their mail by the assistance of patrons. Many of them had to be pulled with teams for several miles after being stuck in snow drifts. The carrier on No. 1 went out so New Salem routes would get their mail.

The schools at Raleigh and in that vicinity were closed today on account of the bad condition of the roads there which prevented the school bus from making its usual rounds.

RED CROSS SUPPLIES SENT

Immense Quantity of Hospital Gar-
ments Shipped to Headquarters

Immense shipments of Red Cross supplies, including between eleven and twelve hundred hospital garments and articles, have been sent out from the headquarters recently. On Wednesday night, seven big boxes containing the goods were packed. Five of the boxes were sent directly abroad and two were sent to the Indianapolis headquarters because they contained miscellaneous articles. One box contained 655 pillow cases. Aside from these were bath robes, pajamas, and bed shirts.

TALBERT IS TAKEN TO FORT HARRISON

Man Held Here As Deserter to Be
Put in Guard House, According
to Washington Instructions

POLICE TO GET \$50 REWARD

"Take the deserter to the nearest fort" were the instructions wired to Chief of Police Yakey in answer to the query sent to the adjutant-general at Washington concerning Clarence Talbert, who was arrested here on a charge of vagrancy and afterwards found to be a deserter from the army at Columbus, Ohio. Basil Seward took Talbert to Fort Benjamin Harrison today, where he will be placed in the guard house and await trial at the army post.

The message also stated that a reward of fifty dollars would be given to the persons making the arrest, who were Policemen Basil Seward and Marshall Newhouse. Talbert confessed to having deserted, saying that he had been in the guard house so much and that he understood that he was to get a dishonorable discharge.

WORKED 59 YEARS FOR ONE FIRM ALONE

Such Was Record of Father of
Charles J. Caron Whose Funeral
Was Held Yesterday

COFFIN HAULED IN BIG WAGON

Mr. and Mrs. Charles J. Caron have returned from Union City where they attended the funeral of Mr. Caron's father, John Caron, Sr., who was said to be the oldest employe working for one firm in the state of Indiana. Mr. Caron went to work at the Koontz furniture factory at Union City in 1858 and worked there without a vacation until a year ago when his health began to fail. The completion of his fiftieth year at the factory was the occasion for a big celebration.

The funeral cortege could not reach the cemetery yesterday on account of the condition of the roads. The motor vehicles were all stalled in the snow and the coffin had to be taken from the hearse and hauled to the cemetery in a big wagon.

AMERICANS IN ACTION ON SEVERAL SECTORS

(By United Press.)
Washington, Jan. 25.—Early this week American forces on the west front were in action on several sectors.

Four were killed on Jan. 21 and 22. Three of these have been recently reported and the fourth Pershing cabled today.

Action also was reported between Americans and the Germans on Monday.

FIRST DRAFT COST COUNTY \$441.50

Average Per Capita Cost \$6.69,
Which is Above Average For
State, According to Report

NEARLY HALF OF IT WASTED

Only 5 Per Cent of Men Inducted
Into Army—Examination Wed-
nesday and Thursday

Names of registrants called for examination next Wednesday and Thursday will be found on page seven today.

The first quota of sixty-six registrants prepared by the county army selection board for induction into the national army cost the county an average of \$6.69 each, according to a report on the cost of the draft compiled by Harry B. Smith, the adjutant general of Indiana. The total cost in Rush county was \$441.50.

Nearly half of the money expended in fixing the status of these sixty-six men was wasted as only sixty-five percent of the number was called to camp and a half dozen of them were sent back home because of physical unfitness. The remaining thirty-five percent which have not yet been called reverted to their old status when the new rules and regulations were issued and had to answer the questionnaires the same as those who had never been called under the old rules.

Rush county's expense was not as high per capita as some other counties, but it was higher than a number of counties in the state. Some selection boards spent money recklessly. For instance, the per capita cost in Switzerland county was \$18.16 and the per capita for the quota of division No. 2 in Wayne county was \$14.77. Several boards spent more than \$12 a man and a number of them cost at least \$10.

Fayette county's per capita cost was \$1.10, one of the lowest in the state and Henry county's was \$6.61. Hancock county's was \$3.99 and Shelby county's was \$6.17. Decatur county's was only six cents per capita, which is the lowest in the state. The average cost for each man in the state to point of enlisting was \$6.28; according to the report, which reveals that Rush county was a little above the average.

Three more rulings from the district board have been received. The board reversed itself in a re-classification of John Alsmann of Arlington, who was put in class two on an agricultural claim in a previous report, but has been moved back to one. The agricultural claim of Talma Hoff of Manilla was denied and he was left in class one. The local board was sustained in the case of Earl McFall of Arlington, who was put in class one on a dependency claim and appealed.

The county board has called registrants for physical examination on next Wednesday and Thursday, twenty-four for Wednesday and twenty-one for Thursday. Men have already been called for examination on Monday and Tuesday of next week. The whereabouts of two men called for Wednesday—Homer Smith and Frank D. Seegers—are unknown. They were placed in class one for failure to return their questionnaires.

The board has just twenty-four questionnaires to deal with yet. A discloses that 1405 have been acted upon. Some of the twenty-four yet to be acted on are questionnaires of men already in the service, or are either lacking in information or have to be corrected.

Three more men were classified today. Ed Lloyd of Greensburg was put in class two, Chester A. Neal of Manilla in class five and Ambrose Deaminger of Bedford in class five.

NITRATE OF SODA CAN BE ORDERED

Arrangements Made by Department
of Agriculture From Farmers to
Order Through County Agent

100,000 TONS ARE BOUGHT

Only Owners or Holders of Farms
May Take Advantage of Offer
—No Money With Application

Nitrate of soda will be sold to the farmers of this county through the county agent, M. F. Dietrick, according to the word received through the U. S. department of agriculture. The nitrate has been purchased through the War Industries board under the authority of the Food Control Act as a part of the program for stimulating agricultural production. It will be unloaded at Atlantic ports and the price will be \$75.50 a ton, free on board cars at port of arrival. Farmers are to pay in addition, freight from port of arrival and the State fertilizer tag fee.

Only actual farmers or owners or holders of farms may make application for a part of the 100,000 tons of nitrate bought by the government. These applications are to be made through the county agent or through a member of the local committee consisting of Earl Payne and John F. McKee of New Salem.

No money will be required with the application but upon notice from the county agent, farmers who have made applications must deposit with a local bank, association or individual, designated by the secretary of Agriculture as the farmer's agent for that purpose, money to cover the cost of the fertilizer except the freight charge. When the money is transmitted to Washington, the nitrate will be shipped to the farmers. If applications exceed the supply, the government will allot the supply on a pro rata basis among those who applied. Applications must be received by February 4.

PROMOTIONS WILL BE MADE TUESDAY

Will Make End of Term For Grade
Pupils and Monday High School
Promotions Take Place

1 SESSION TO BE CONTINUED

Promotions will be made in the city schools on next Friday, February 1, and on Monday, February 4. Grade pupils will receive their cards on the former date and the high school students will be given reports on the following Monday. Examinations in the high school will be conducted on Wednesday and Thursday of next week, while plans for the grade examinations will vary as to time.

The present plan of conducting school in only one session will continue until the weather is warmer and until another supply of coal is received. At present, the plan is working out very successfully.

BRINGS BACK SAMPLES

Sheriff Ezekiel Jones and his nephew, Hugh Jones, have returned from short stays in Chicago and Michigan City. While in Chicago they visited Mr. Jones' nephew, Neal Jones, who is a candy maker. The boxes of candy which the sheriff brought home to some of his friends proves that his nephew deserves the title that his Chicago friends have given him, "the candy king."

IRISH TO MEET PREMIER

London, Jan. 25.—Premier Lloyd George has invited the leading members of the Irish convention to con-

DISTRICT MEET POSTPONED

Rebekah Lodge Session Will Not Be
Held Until February or March

Because of the action taken by a number of the lodges of the city calling off all meetings in order that the fuel might be conserved, the district meeting of the Rebekah lodge, which was to be held in this city, February 8, has been postponed indefinitely. It is the present plan of the committee in charge of the convention plans to call the meeting either the latter part of February or some time during March.

WHOLESALE PRICE OF STORAGE EGGS FIXED

Instructions From State Food Ad-
ministration Received by County
Administrator Lovett.

40 CENTS FOR STORAGE FIRSTS

Definite instructions on price of cold storage eggs are being given to the grocers by Charles A. Frazee, deputy in this city of M. F. Lovett, federal food administrator for the county. Wholesale prices for storage eggs have been set by the government at 40 cents a dozen for storage firsts and 41 cents for extras. The administration holds that a wholesaler who is out of eggs and must purchase to fill his reasonable requirements will be permitted to sell such purchases at a profit, not to exceed 2 1/2 per cent in car lots and 4 per cent in small lots. The purchases are not to exceed one week's requirements. Any wholesaler who asks more than his usual profit will be profiteering, states the administration. Dealers are now charging fifty cents retail for storage eggs here.

SURVEYOR GENERAL OF SUPPLIES NAMED

New Job Created to Co-Ordinate
Army Purchases Seen as Play
For Harmony.

BAKER ASKS TO BE HEARD

(By United Press.)
Washington, Jan. 25.—By a tremendous attack on the inefficiency in the war department, the administration today reorganized the army supply department.

A surveyor general of the supplies to co-ordinate all army purchases was named—Edward Pfeiffer, of New York.

At the same time the administration caused a counter assault in defense of Secretary of War Baker. In a letter endorsed by the president, the war secretary asked Senator Chamberlain for opportunity to tell the country "what America has really done in the war."

The dual move was started by officials here as a play for harmony.

FOOD STORES TO BE CLOSED

Monday Closing Order Hits These
Establishments as All Others.

(By United Press.)

Indianapolis, Ind., Jan. 25.—All wholesale and retail stores handling food must close every Monday beginning next Monday, continuing to March 29, according to an order from Herbert Hoover, made public by Dr. H. E. Barnard, federal food administrator for Indiana, today.

RESIGNATION REPORTED

Copenhagen, Jan. 25.—The resignation of Premier Weydemeyer, Hungarian premier, was again reported here today, indicating continued negotiations with Austria-Hungary.

CENTRAL POWERS ANGLE FOR PEACE

Hertling's Demand That England
Give up Gibraltar is One of the
Balking Points.

ALSACE LORRAINE ANOTHER

Austrian-Hungarian War Aims
Show Significant Difference From
Those of Germany

(By United Press.)

Washington, Jan. 25.—The central empires are angling for further discussion with the United States, but will not go far enough to bring peace.

Count Hertling's demands that England give up Gibraltar and other fortified points. Another balking point is the Alsace Lorraine question.

Berne, Jan. 25.—In his long expected speech Count Von Hertling made to the Reichstag committee, received in Amsterdam today, raised an entirely new obstacle to peace. Count Czernin, Austro-Hungarian minister, in a speech received here contained what might be a significant difference of opinion with the German war aims. He adopted a more conciliatory tone in answering President Wilson's and Lloyd George's terms.

"Austria-Hungary and the United States practically agree on many of the principals as to the arrangement of the world at the close of the war and approach the same conclusion on many peace questions," Count Czernin said.

"The interest of the United States and Austria-Hungary are left more incompatible than it would seem."

He also declared that the speeches of Lloyd George and Wilson contained acceptable principals.

"On the first four points an agreement is obtainable without difficulty," he continued.

"On the fifth there will be difficulty," he declared.

"The sixth concerns only Russia and the central powers."

"The seventh can only be settled in peace negotiations, but Germany has never demanded incorporation of Belgian territory by violence."

"On the eighth Germany does not wish annexation by violence but this is a question to be discussed by France and Germany."

"However we cannot talk of the annexation of Alsace Lorraine."

"On the ninth and tenth points Germany remains solidly with Austria-Hungary."

JANIE TALKINGTON DIES AT SON'S HOME

Expires of Dropsy and Heart Trou-
ble—Came Here From Barthol-
mew County 3 Years Ago

4 SONS AND DAUGHTERS LEFT

Mrs. Janie Talkington, 76, mother of J. E. Talkington of this city, died at the home of her son in East Tenth street yesterday afternoon after being ill for three years time. Dropsy and heart trouble caused the death. Mrs. Talkington came to this city with her son three years ago, after having lived in Bartholmew county. She was born and spent her early days in Decatur county, where she became a member of the Christian church. Four sons and one daughter survive. They are Samuel Talkington of Madison, B. W. Talkington of Columbus, Arthur Talkington of Jeffersonville, J. E. Talkington of this city, and Mrs. Bessie Johnson of Ellettsburg. The funeral service will be conducted tomorrow morning at 10 o'clock from the home of her son, East Tenth street.

Fake Relief Solicitors

This is an era of high prices. Bankers and financiers generally tell us there is plenty money in circulation. Naturally in flush times people are inclined to loosen up on the purse strings. This is commendable, especially in view of the many calls that are being made on the generosity of the public.

But if we are not very careful, much of our charity will be misplaced. There are legitimate calls that we must meet, and we can not afford to be humbugged. The government must be financed, the Red Cross and kindred organizations must be supported, and it will take every dollar we can take together to meet these demands.

Aside from these legitimate demands, though, every now and then we are importuned to give to this, that and the other so-called "relief" scheme. People with more patriotism than brains conceive that the soldiers are not being properly cared for, and a "bazaar" is promoted to give the needed relief. The people out of their loyalty and generosity respond liberally, with the result that if the promoters are honest and disinterested, the soldier boys are deluged with a lot of junk for which they have no earthly use. In many cases, however, the promoters are "interested" more in themselves than in the boys, in which case the proceeds are mainly eaten up in the form of salaries and expenses.

The Government has issued instructions for all the auxiliary work it wishes the people at large to assist in carrying on, and it will be well for all to read up on these instructions, that they be not duped. Not every young enthusiast who can scare up a red, white and blue sash and take a collection for a "cause" is to be encouraged.

There are, as we have said, legitimate channels through which our relief can be bestowed, and we should be very careful to see that it goes through these channels, that it may be sure of reaching the object for which it is given.

The Bar's Work

The voluntary, free-of-charge service of the lawyers have made the taking of the draft questionnaire a comparatively easy matter. This work has been done, not merely by the young practitioner desirous of extending his acquaintance but also by most of the older members of the bar to whom the time spent in this duty has been a real loss of professional income. A larger measure of hardly ever been rendered in any cause. The legal fraternity has earned the thanks of this community, where, but for its assistance, the registrants would have had a hard time of it.

An attempt for the navy was shut off yesterday by order of Secretary of the Navy Daniels to purchase no more supplies. It is reported the order resulted from the discovery of an unapproved substance. Probably some German submarine got into the navy supplies.

Compulsory purchase of Liberty Bonds and stamps, reports with the government, and other things from the

A WREATH IMMORTAL.

KEEPING SOLDIERS STRONG

Early in the world-war cod liver oil was selected to fortify the health of soldiers against the rigors and exposure of camp life and to help build up enduring strength.

SCOTT'S IS THE EMULSION

that actually guarantees the pure quality of Norwegian Cod Liver Oil which is refined in our own American laboratories.

It is skilfully emulsified to promote prompt assimilation which is always difficult with the raw oil.

Scott's Emulsion is famous for putting power in the blood to thwart colds, grippe, pneumonia and lung trouble. It is free from alcohol or opiates.

CHANGES OWNERS 3 TIMES

Milroy Garage Has 3 Proprietors in Three Weeks

"Who is the owner today?" is the first query made by patrons of the Milroy garage on entering the building. There is little wonder, however, that the question should be asked when it is considered that during the past three weeks the garage has changed owners three times.

Three weeks ago the business was under the firm name of Carr and Smith, two weeks ago it was changed to Clyde Kitchen and yesterday the name of Goldie Carr replaced that of Kitchen.

Amusements

Laid in the snowy wilds of Alaska, the story of "The Strength of Men" appearing at the Gem theatre this evening is one distinctly different and interesting. Edith Storey takes the leading role. "Captain Barnacles Legacy" and "The Fighting Trail" again tomorrow, another adventure of Stinger will be shown.

The largest aviary in the world was used during the filming of Geraldine Farrer's first Aerial cinema spectacle, "The Woman God Forgot," which will be seen at the Princess tonight.

A number of scenes show the huge and flaming pool and garden of Mount Olympus, including the

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open; the air passages of your head will clear and you can breathe freely. No more hawking, snuffing, blowing, headache, dryness. No struggling for breath at night, your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

pool was especially built for the production and is in the garden containing the temple of the sacred bird. The garden and pool were enclosed in wire netting nearly 50 feet high and 400 feet long, to prevent the escape of the thousands of birds with which the foliage was filled.

R. J. Blank, former local high school teacher who enlisted in the ordnance department and was sent to Fort Johnson, Fla. has been transferred to the "Remount" department. He was one of the 300 men chosen from the entire camp for this department.

The Evening Line-Up

Both children and grown-ups, with coughs and colds, are all the better for a dose of Foley's Honey and Tar at bed time. It wards off croup, stops tickling throat, and hacking coughs, and makes an otherwise feverish, sleepless night of coughing and distress, a quiet and restful one.

BROWNSVILLE, TEXAS, Mr. Chas. Baker, writes: "My wife would not think of using any other cough medicine, as Foley's Honey and Tar is certain to bring quick relief. It is especially effective in cases of bad coughs, and we give it to our children and recommend it always as a safe remedy, for it contains no opiates."

F. B. Johnson.

We Are Not Affected

At first we thought that our business would be closed during this five-day period, but we have been informed that we are not termed as a manufacturing plant.

Importance of The Red Cross Being Realized

Woman of County Are Awakening to Their Duty as is Disclosed by Splendid Work Done by 16 Auxiliaries. Manila Woman's Letters Sample of Spirit. State Headquarters Compliments Local Chapter on Quality of Work Done Here. Dozen Hustlers Organize.

Rush county women are awakening more and more to the importance of Red Cross work and showing their interest by work and results. All of the auxiliaries over the county, and there are sixteen of them, are doing splendid work and are gaining strength constantly. The large amounts of beautifully made supplies that are brought into the headquarters at the court house from the auxiliaries almost daily prove what the county women are doing.

As to the Manila organization, a part of the letter received by Mrs. Cora M. Stewart, head of the auxiliaries of Red Cross, from Mrs. Jesse Shelton, chairman of the Manila auxiliary speaks for itself. A part of the letter follows:

"Send us more work; we have several all day meetings planned ahead. We can make 40 garments a day. The women of this place are roused to the call for work as never before. Ever since our young men stepped out and showed their colors the women have realized the necessity of plunging into the Red Cross work as never before. And we are doing it too. I firmly believe that if the call came for women to shoulder the gun, every woman in Walker township would buckle on the accoutrements and never stop until she got to the front line trench."

"Send us fifty garments by tomorrow noon, sure."

Not only are the women accomplishing a great deal, but the standard of the work is high. Mrs. Phil Wilt, head of the sewing department recently received a letter from the secretary of the Red Cross supply headquarters at Indianapolis, Miss Kate C. Martindale, commending the women of the county for the beautifully made supplies. The letter read in part:

"Your three boxes arrived promptly and have proved to be quite up to the standard of work we have come to expect from Rush county. The garments are beautifully made always, and the surgical dressings are equally satisfactory."

And the women are original. They are reaching the top notch of efficiency by utilizing every speck of the material that is purchased. Only one of the incidents proving this is the latest accomplishment of the Dozen Hustlers, an auxiliary of the Red Cross in the southwestern part of the county.

Not long ago these women asked for something to do other than making hospital garments. Mrs. Stephen Kelly suggested at the headquarters that they make comforts by using the scraps that fall from the cutting table. Comforts made of scraps are not listed in hospital requirements but the scraps were given to these women with the instructions to make them into comforts for single beds. The understanding was that if the Red Cross headquarters would not accept them, they would be sent to the French Relief.

"Send them as fast as you can make them," was the reply from the headquarters of Red Cross at Indianapolis when the matter was presented to them. Since that time, the Dozen Hustlers have taken the scraps and returned them in nicely finished comforts, lined and interlined. The pieces that are too small to work into comfort blocks are clipped into tiny pieces and stuffed into the cases for pillows. The women donate the material for the cases making them of old muslin that cannot be otherwise used.

This auxiliary has turned in nearly 100 pillows in the past 2 months. Mrs. H. C. Webb is chairman of the Dozen Hustlers and Miss Lucile West is secretary. The women meet every Wednesday at the homes in the neighborhood.

Life has its little incongruities. Mrs. B. Nobel, who awards five dollars each year for the five greatest deeds performed for humanity in Rush county, made nine millionaires at

Society

At the meeting of the Sunday school class of the Main Street Christian church, of which Mrs. Blanche Baine Rawlings is teacher, which was held last night at the home of Miss Phyllis Casady in West Tenth street, Miss Janet Dean was elected president of the class for this year. The other officers elected were vice-president, Phyllis Casady and treasurer Miss Helen Thomas. Following the business meeting the guests enjoyed a short social period and the hostess served a two course luncheon.

Local members of the Kappa Alpha Theta have received letters asking for subscriptions to the fund being raised to equip the nurses of one army hospital. The amount needed is \$3,800 and each Theta is asked to send \$1.75 toward raising the fund. One nurse's equipment costs \$58 and includes a white dress, blue woolen dress, coat, cape and hat. The sorority is responding quickly and enthusiastically to the call.

The regular meeting of the Harmony Club was held last night with Mr. and Mrs. Frank Flint at their home 218 West First street. Guests for four card tables were entertained and at the close of a pleasant evening the hostess served a two course luncheon. The next meeting will be held in two weeks at the home of Miss Flora Gutaphel at the Beer House.

Mrs. Link Giffin of North Harrison street was hostess to the members of the Social Dozen yesterday afternoon at a pleasant meeting which was held at her home. At the close of the afternoon which was spent at knitting, the hostess served a two course luncheon. The next meeting of the club will be held in two weeks.

An opportunity will be offered on Monday evening by the Ladies Musical for everyone to enjoy a varied musical program and incidentally give a contribution to Red Cross. The musical to which everyone is invited will be in the sheriff's office at the court house, beginning at 7:30 o'clock.

Mr. and Mrs. Thomas Canley will

entertain with a six o'clock dinner at their home in North Morgan street this evening in honor of Mrs. George Ferguson of Kansas City formerly Miss Mary Canley of this city.

—Mrs. Willard Petro of Cambridge City was the guest of Mrs. Guy Abercrombie of North Perkins street today. Mrs. Petro is secretary-treasurer of the federated clubs of the sixth district.

All meetings of the Royal Neighbors lodge of this city have been postponed until February 25th. The lodge took this action in order to conserve the fuel supply.

Mr. and Mrs. J. K. Gowdy observed their fifty-first wedding anniversary at their home, 619 North Perkins street, yesterday.

With The Churches

—The services for the United Presbyterian church at Glenwood will be Sunday school at 1:30 and preaching at 2:15.

—Arlington and Franklin Methodist churches: Sunday services will depend upon the severity of the weather and the prospect of fuel. The pastor has arranged union services for Sunday afternoon and night, but circumstances may prevent this.

—First Baptist church, C. J. Bunell pastor, residence 612 North Morgan street, phone No. 1911: Sabbath school, 9:30 public worship 10:45, subject for sermon, "Why Paul Spent Three Years in Arabia?" Union services will be conducted at 7:00 o'clock in the evening.

—First Presbyterian church: 7:00 a. m., "Quiet Hour," 9:30 Bible school; 10:30, patriotic service with special addresses and the presentation of the service flag. There will be no services in the evening because of the union services to be conducted at the First Baptist church.

—United Presbyterian church: Bible school at 9:30; preaching at 10:45. The Young Peoples Christian Union will meet at the church at six

War Mothers Be Enrolled In Congress

Mrs. John Blackledge Has Been Appointed County War Mother by State Council of Defense For National Organization of War Mothers to Have Chapter in This County.

Plans will be started soon for the enrollment of Rush county women who have given sons or husbands to the military service of the country, to become members of the National Congress of Mothers with a view to strengthening patriotism and creating bonds of sympathy.

It has been pointed out that men who have motherless sons in the service will be admitted to membership and that a fee of fifty cents will be charged for the purpose of carrying on the work of the local organization including the buying of wool and other materials for soldiers whose relatives have not the means of supporting their needs.

The county war mother or some one appointed by her will have charge of the enrollment of mothers. Mrs. John Blackledge has been appointed war mother for Rush county by the state council of defense.

o'clock. The congregation will join in the Union services to be held at the First Baptist church at 7:00 o'clock. There will be congregational prayer meeting on Thursday evening at 7:30.

—Services at the St. Paul's M. E. church for Sunday are as follows: Sunday school at 9:30 o'clock; morning worship at 10:30 o'clock. Sermon by the pastor on "What is a Good Methodist?" Junior League at 3 o'clock, Epworth League at 6 o'clock. Vocal duet by Mrs. George Wiltse and Mrs. Mert Wolcott. Union service at 7 o'clock at First Baptist church. Prayer meeting Thursday evening at parsonage.

MILROY INSTITUTE PUT OFF

The Farmer's institute which was to have been held at the Milroy school house yesterday was postponed indefinitely because of the inability of the speakers to reach Milroy. Delayed train schedules and the bad condition of the roads prevented the speakers from reaching their destination. Herman F. Wilkie of the State Council of Defense and speakers from Purdue were to have been on the program.

Girls Receive Letters of Appreciation

Soldiers in Training at Camp Shelby And Camp Taylor Thank High School Pupils For Home Made Candy Sent Them at Christmas.

Letters of appreciation for the boxes of candy sent to them at Christmas time have been received by the members of the high school girls war relief organization from soldiers in the training camps at Hattiesburg, Miss., and Louisville, Ky.

Fifty-three boxes were filled with home made candy by the domestic science classes and were sent to the headquarters of the two cantonments to be given to soldiers who might not receive other Christmas remembrances.

The letters indicated that the candy had been distributed among the boys who were in the hospitals and many of the letters received were most touching, the writers inferring that bit for the thoughtfulness of the Rushville high school girls their Christmas would have been "giftless."

GOES TO GREENFIELD TODAY

M. F. Dietrick Will Open Food Production Campaign There

County agent Marion F. Dietrick went to Greenfield today to aid in making arrangements for a meeting of the farmers of that community which will open the food production campaign. Mr. Dietrick was erroneously quoted in yesterday's paper as having said that if ten bushels of bad seed corn were used to the acre, Rush county's loss would equal one million bushels of corn. The statement should have been that if ten bushels to the acre were lost by the use of bad seed corn, Rush county's loss would equal a million bushels.

RED CROSS NOTES

The members of the colored women's auxiliary will have one table at the Red Cross headquarters tomorrow afternoon. Their original plan was to sew at the colored school but during the fuel shortage, the plan has been changed and they will sew at headquarters on Saturday.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

WANTS RECOGNITION OF WORLD'S PEOPLE

Russia More Concerned With That Than Obtaining Recognition From Foreign Powers.

STATEMENT OF BOLSHEVIKI

(By United Press.)
Petrograd, Jan. 25.—Russia wants recognition from the people of the world more than the government of the world.
The Bolshevik ministry of foreign affairs outlines Russia's view points in a special statement today.
"The Russian people hitherto in all

ROOTERS WILL GO WITH TEAM TONIGHT

They Are Going to Pull Hard For a Victory Over Connersville High School Quintet.

TEAMS ARE OLD TIME RIVALS

Thirty or forty rooters are expected to accompany the local high school basketball five to Connersville tonight for the contest and to cheer ages have been ruled from above," it declared. "Now they rule themselves. They will stand and fight against all foes wherever found with full pride in the consequence of having contributed an immortal pain to the enemies of mankind."
"The government is not concerned with obtaining official recognition from foreign powers."

them on to victory. The local lads have put in a hard week of practicing, being forced to practice in the afternoons because of the early closing hours. One of the most spirited contests of the season is expected for tonight when the team meets the old time rivals at Connersville.
No special car has been chartered but the students will go on different cars this afternoon and evening and on the train.

LIEUT. GARTIN IMPROVES

Lieutenant Walter Gartin, who has been critically ill with pneumonia at a base hospital at Camp Taylor, Ky., continues to show signs of slight improvement according to the letter received by his father, J. W. Gartin, from Mrs. Gartin this morning, who is at the base hospital with her son. The letter was written yesterday morning and said that the doctors feel encouraged over his condition.

The American House Manager is today a member of the army that is fighting to save democracy in the world. More than 11,000,000 managers of American homes have enlisted for the duration of the war and pledged themselves to support the fighting men by the way they buy, cook and serve food. Food will win the war, and these women will help to win it. America must send food to Europe. The armies cannot hold out if we fail to send it. Only certain foods

can be shipped—those that pack the most food value into the smallest shipping space. These foods are wheat, meat, fats, sugar. We cannot eat them and send them too. We cannot eat them and send others. We must send these foods, and in order to do that we must eat other foods ourselves. The American House Manager will see to it that no food comes into her home that does not do its full duty under her management in winning the war.

Enormous Power Wasted.

In the United States today we are developing about 46,000,000 horse power from steam and about 6,000,000 from running water. We are mining more than 400,000,000 tons of soft coal annually, to make steam, while the unharvested water, merely running down hill, represents a possible horse power of 30,000,000. That is to say every 24 hours the potential but wasted water power in America is equivalent to 1,000,000 tons of coal—1,000,000 tons daily going to waste!—Minneapolis Journal.

JUST FOR FUN

You May Have Noticed.
"Women of foreign lands have some outlandish customs as regards dress."
"Not too outlandish for our girls to try out at least one season."

ABANDON PLANS TO OVERRUN PLAINS

Anstro-German Armies Change Movements And Retire on The Piave River Westward

LOSES HOPE BREAKING LINE

London, Jan. 25.—Abandonment of the plan to overrun the Venetian plain appears to have been decided on by the Anstro-German armies and is indicated in the retirement of the Piave river westward.

While the enemy holds his advance positions on both slopes of the Brenta river his voluntary evacuation of one of the chief lines of approach to the plain appears to indicate that he has given up hope of breaking through this water, and the French are receiving a large measure of credit for this decisive setback of the enemy's plans.

When the French made their drive at Mt. Tonin some of the detachments were carried by enthusiasm through the Anstro-German lines to the banks of the Piave river. They found the hamlets were deserted but it was believed this was incident to the day's operations and it was not then known that the region was being evacuated systematically by the enemy.

GERMAN HIT OWN MINES

Copenhagen, Jan. 25.—The mine field responsible for the sinking on Sunday of the German destroyers A-73 and A-179 was of German origin. The seventeen men from the crew of the A-179, the only survivors from the two vessels, suffered greatly for four days on the open sea.

A Series of Five Union Sunday Evening Services beginning Jan. 27th at 7 p. m. and ending Feb 24th, the Methodist Episcopal, First Presbyterian, United Presbyterian First Baptist and Christian churches participating.

The Purpose of the Meetings

To clearly set forth the place, function and ministry of the church in this hour of world crisis and to inspire all to their utmost endeavor in patriotic service.

5 Sunday Evenings of Co-operation and Good Fellowship.
Great Patriotic and Religious Programs.
Inspiring Musical Preludes.
Protestant Churches Co-operating.
Tons of Coal Conserved Each Week.

All Meetings Held in the Baptist Church

Which is heated with wood.

All members of the above churches and the citizens of the entire community are urged to attend and support this series of services.

PRINCESS—TONIGHT

GERALDINE FARRAR in

"The Woman That God Forgot"

By Jane Macpherson

Geraldine Farrar, the noted prima donna, will make her debut in the big spectacular photoplay written especially for her.

The story of a Princess who sells her country for the love of the man she loves.

One of the most massive sets ever made for a picture is a big pyramid 200 feet high with a stairway leading up to it on which one thousand people battle.

One of the most elaborately staged productions ever made. Massive settings, thousands of people, gorgeous gowns, beautiful women, startling battle scenes.

A picture that cost thousands of dollars.

OBITUARY

Martha J. DeBank was born March 4, 1848, in DePue, County near Greensburg, Ind., and departed this life, January 20, 1918, age 69 years, 10 months and 16 days, was DeBank.

She was married to William DeMoss, Oct. 23, 1865. To this union was born 8 children, 2 died in infancy and Eveline Rachel at age 11 months, preceded her. She is survived by the husband and 2 sons and 3 daughters William M. DeMoss of Henderson and James M. DeMoss of Rushville. Miss Jennie DeMoss of Henderson, Mrs. B. E. Green of Rushville and Mrs. Ert Dearing of near Homer.

Two brothers, Marion DeBank of Broad Ripple, Ind. and Milton DeBank of Harris City, Ind., one sister Mrs. Caroline Oakley of Shelbyville, Ind., besides these 6 grandchildren and a host of friends to mourn her loss.

She was appreciated by her neighbors as a kind, helpful friend, in her home she was a tender loving mother and a true and faithful wife. She united with the Methodist church in her girlhood and continued a faithful member to the end, ever expressing her comfort and secret prayer. She was always willing to do any task however difficult for the comfort of those she loved and lived in abiding faith in her Savior.

OBITUARY

At 9:15 o'clock, Friday morning Jan. 18, 1918, John B. McCarty passed away at his home on Tenth street, Rushville, Ind., of which city he had been a resident 12 years. He was born in Madison Co., near Markleville, April 11, 1846, being 71 years, 9 months, 17 days at time of death. Mr. McCarty was the second child and eldest son of Benjamin McCarty and Angeline Cook, in a family of seven children, 5 boys and 2 girls, Mrs. Nancy Wasehart, and Mrs. John Richmond of Middletown, Ind., Joel, Jasper and Ithamer McCarty all deceased, and Benjamin who lives in Washington state.

December 31, 1867 he was united in marriage to Mary Francis Maury, daughter of Mr. and Mrs. Peter Maury, residents of Madison Co., but later of Rushville, Ind.

Mr. McCarty was reared on the farm and engaged in farming near Markleville, where he lived 3 years then moved to Rush Co., to what is now the old Maury homestead four miles north of Rushville where he lived five years moving from there to a farm which he purchased near Greensburg where he resided until about 22 years ago, at which time he again moved to the Maury homestead, where he lived and was actively engaged in farming until about 12 years ago when he moved to this city where he continued to live until his death.

At the age of 23 he united with the Christian church at Markleville during a series of meetings conducted by the Rev. Martin Luther Blaney of which church he has been a faithful member, having his membership at the Main street Christian church at the time of his death.

To the marriage union were born 5 children, 3 sons and 2 daughters, Mrs. Robert Brooks, Greenfield, Greeley P. and Ithamer of this city, Carl B. of Danreith and Mrs. Pearl Bell of this city. Mr. McCarty is survived by his widow, 5 children, 3 grand children and 1 great grand child to mourn his loss. He was a kind and indulgent father, always interested in the welfare of his family and always desirous of having them with him in the home, expressing disappointment if his children and those nearest him did not visit him often, preferring that to going into other homes to visit.

He was a loyal home man, being always interested in his home life and the comforts of the home.

As a husband, father, neighbor and friend he was always loyal and true. So, our hearts are sad today by the loss of this husband, father and friend and after life's duties he now sleeps and is at rest from all his labors.

Kindly in spirit and manly in life, we loved him and shall miss him. His earthly life is ended forever, never again will he be seen in the home where his children loved to play, nor will he be seen in the place where he spent his hours in his association.

His voice is hushed in death, the heart which he so often cheered, is now silent. His life was so good.

Stronger Men
Take the Lead

Vital force is the material from which leaders in all walks of life are made, it is well worth getting and holding.

The health and nerve of the athlete is what Nature intended every man and woman to have.

The blood of an athlete is pure and red, a strong heart pumps and drives it through his body. No wonder that every inch of his system is filled with energy and health, his nerves like iron, spirits high, hard tasks a pleasure and life one song of joy.

A leading Doctor says, "Everyone should feel this way. That if you are not red blooded, are nervous, all run down and on your last legs, for you to build up your blood and nerves with exercise, fresh air, nourishing food and Nature's great prescription Phosphated Iron a real blood and nerve builder."

Then you will be there with vim and push to easily do the work that you now do on your nerves alone.

He also says, "Phosphated Iron feeds the blood cells with iron and nerve force, and that leading specialists are now using it successfully all over the country, that it has sprung into almost constant popularity with the better class of doctors as one of the few remedies they can depend on to produce results."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow dealers to substitute any pills or tablets. **PITMAN & WILSON** and leading Druggists Everywhere. Rushville, Ind.—(Adv.)

shall the family and friends console themselves in the loss of his companionship? Why, in the fact that death is not the end of life but only a step higher, out of the mortal into the immortal. Because to depart and be with Christ is far better," for one who has finished his work and who is so deserving of the rest that is promised to all those who believe in him.

Father, we bid thee farewell on earth. We now consign thy body, to the cold, cold ground, but we shall meet thee beyond the river—for blessed are the dead who die in the Lord.

The words of the past so beautifully express the life and departure of our dear one:—

Sunset and evening star,
And one clear call for me,
And may there be no moaning of the bar

When I put out to sea.

For such a tide as moving seems asleep,

Too full for sound or foam,
When that which drew me out the boundless deep

Turns again home.

Twilight and evening bell,
And after that the dark,
And may there be no sadness of farewell,

When I embark.

For tho' from out this flood of Time and Place,

The flood may bear me far,
I hope to see my pilot face to face

When I have crossed the bar.

27011

BIG CORN CROP
IS NOW MOVING

More Than 3,000 Million Bushels Raised in 1917—Gives Big Surplus.

SAVES WORLD FOOD SITUATION

America Beginning Greatest Corn Consumption in History, Using Cereal in Many Delicious Dishes.

Corn, America's greatest cereal crop, is now moving rapidly to market.

More than 3,000 million bushels—30 bushels for every man, woman and child in America—were raised in 1917. It was a mighty crop. The actual increase is about 500 million bushels. And this extra store of grain is coming on to the market in the nick of time, since the American wheat surplus has been sent to help feed famine threatened Europe.

Just as it happened in the Colonial days, the War of the Revolution, and the Civil War, corn has actually become the nation's mainstay.

In the entire list of America's food commodities there is no item that is better than corn. In puddings, bread, corn pone, and as hominy combined with meat or eggs, corn is without a peer. Housewives are fast learning the large number of delicious dishes that may be made with corn and their families are benefiting by an increased use of the cereal. Corn, more than any other cereal, contains all the elements essential to maintaining life and health.

In order that the fighting men abroad and in the army camps at home may be fed, and in order that actual famine may be kept from the nations associated with America in the war, the citizens of America are finding corn products delicious and palatable on "wheatless days" and glory in the fact that "wheatless days" here mean more wheat for the war worn allied nations in Europe.

England, France and Italy must be fed from America's great storehouse. They will get some corn—especially Italy—but most of their grain shipments must be wheat. Their ability to use corn is small compared to the facilities they have for using wheat. And it is the opinion of officials in Washington that the present is no time to try and change the eating habits of Europe.

America's greatest use of corn will be in the form of corn bread and corn meal, mixed with wheat in the making of leavened bread.

Mixed with 80 per cent. wheat flour, corn meal can be used in bread making, producing a loaf more nutritious than bread baked with wheat alone. It is a fact corn millers will verify that dozens of the large American bakers have been successfully using a corn flour in bread making for several years.

Hominy grits, served at breakfast with a poached egg, or eaten at any other meal with meats or gravy, is another use of corn that will become unusually popular during the war.

Corn syrup to sweeten corn cakes, and corn oil for use in all kinds of cooking, are two more products that are already welcomed in thousands of American homes.

THE UNITED STATES FOOD ADMINISTRATION SAYS:

Food saving is in its essence the daily individual service of all the people. Every group can substitute, and even the great majority of thrifty people can save a little—and the more luxurious elements of the population can, by reduction to simple living, save much. This means no more than that we should eat plenty, but wisely and without waste.

Food Will Win the War

A LARGE part of the world is coming to the position that Belgium is in, coming to the stage where the primary and important thing in life is enough food to keep alive. Food has now taken a dominant position in the war. The American people must prepare themselves to sacrifice far more than was at first thought necessary.

The food facts are: France, Italy and England have just enough food to keep them going ten or twelve weeks. When America's food shipments stop the allied nations begin consuming this slender store and begin to march into actual famine conditions—which would mean defeat in short order. Europe then must live on America's surplus. Your saving means more food available for Europe. It means more food for the Central Powers. It means more food for the Allies.

SUGAR CONTROL
SAVED MILLIONS

American Consumer Profited by \$180,000,000—French Situation Helped.

HOME PRICE HELD AT 9 CENTS.

This Nation's Sugar Supply Reduced to Seventy Per Cent. of Normal. Java Stocks Unavailable.

Sugar control has saved the American public \$180,000,000, Herbert Hoover, United States food administrator, declared the other day.

He pointed out that sugar was selling for 11 cents a pound last August and that it would have advanced to 20 cents a pound, with the world shortage as a stimulus, had not the food administration secured the co-operation of the refiners and wholesalers and fixed a sugar price that today enables housewives to buy sugar at from 8½ to 9 cents a pound.

"Every 1 cent raise in sugar from September 1 to January 1 means \$18,000,000 to the American consumer," Mr. Hoover said. "Numbers of gentlemen will tell you that 20 cent sugar would have prevailed and the public robbed of \$180,000,000 this year if we had not taken these actions." Later Mr. Hoover called attention to the fact that uncontrolled sugar advanced to 35 cents a pound during the Civil War.

France Got Our Sugar.

Today the American public has been allotted 70 per cent. of its normal supply. Before the war the average annual household consumption here was 55 pounds a person. In England the annual consumption during the war is 24 pounds, and in France each person is allotted a little over one pound a month.

"In August the French government found itself unable to maintain even this ration," Mr. Hoover declared. "An appeal was made to America. France needed 100,000 tons. We agreed to fill this demand and up to December had shipped \$5,426 tons. In the meantime an appeal was made to the American public to reduce its sugar consumption, and requests were made to distributors to supply the confectionary and sweet drinks trade with 50 per cent. of normal supply. This has been generally followed, although such regulations were voluntary, as the food administration had no authority to impose them."

Domestic Price Is 8½ to 9 Cents.

Retail grocers throughout the country are supposed to take a profit of no more than 50 cents a hundred—half a cent a pound—on sugar. By reason of food administration regulations, binding refiners and wholesalers, the retailer is able today to buy sugar at from 8 to 8½ cents a pound. This enables him to sell to the housewife at 8½ to 9 cents a pound.

There have been some violations of the sugar rulings. Mr. Hoover said recently: "Sales of sugar from 10 to 20 cents per pound have been reported and followed up vigorously and stopped and is evidence itself of the prices at which consumers would have been misled had we not intervened. We have forfeited wholesalers' licenses in aggravated cases, and we have issued warnings to first offenders in a great many instances through our local administrators."

Effect on Military Situation.

American sugar stocks could be filled to normal very soon if ships could be sent to Java, where 250,000 tons of sugar is waiting for shipment. But the shipping situation is so acute that the nation cannot spare the eleven ships needed to transport this sugar. It would take the boats one year to haul 250,000 tons. In the same time they could be used for transporting 200,000 soldiers to France.

The food administration believes that the American public will diminish its sugar consumption by 10 or 15 per cent. when it is made clear that such sugar saving is a patriotic act and when it is understood that there are plenty of sweeteners available to take the place of sugar, such as honey or corn syrup.

Why Shortage Exists.

The three great sugar producing centers of the world are Germany, the West and East Indies. German sugar is, of course, used at home. The East Indies sugar is unavailable because of the ship shortage.

While U. S. boats made big inroads on the world's shipping, France and Italy ceased to be self-sustaining in sugar manufacture. England in the meantime was cut off from German sugar. The result has been that the allied nations have been forced to turn to America and the West Indies for their sugar.

EVASION OF FOOD CONTROL.

Food is bought in Germany surreptitiously in violation of American laws. The German government is using the American government's own regulations.

Even the automatic food control of Germany has been powerless to curb the surreptitious sale of foodstuffs. The United States food administration has called attention to the fact that many of the German officials are using the American government's own regulations to evade the food control.

GRADE and LABEL

is the next government move. Standardizing low grades at higher prices. We still have the same label and high grade and our prices compare with the low grades. Then why buy something you know nothing about?

PUBLIC SALE

I, the undersigned, having sold my farm, will make a Clean-up Sale of my personal property at my present residence, 2 miles northeast of Rushville, on what is known as the Dr. W. H. Smith farm, on

THURSDAY, JAN. 31, 1918

Sale to Commence at 10:00 A. M. Sharp

Sale Held Under Waterproof Tent Regardless of Weather

8 Head of Horses and Mules 8

1 coming four-year-old gray mare, weight 1300 pounds, in foal, good broke mare for age; 1 bay mare coming seven-year-old, in foal, weight 1250, extra good broke single or double; 1 sorrel gelding coming four year old, will make a 1600 pound gelding and one of the right kind, extra good broke colt; 1 coming two-year-old sorrel gelding out of the same mare as the aforesaid gelding that will make a great mate, and I think, will mature to as good a pair of geldings as you will have a chance to buy this year—if I had a farm no man could own them; 1 bay filly three years old, unbroke; 1 coming ten-year-old gelding, an extra good user any place you hitch him, single or double; 1 coming two-year-old draft filly, out of good horse; 1 work mule, good user.

10 Head of Cattle 10

Two Jersey milk cows giving milk; one-half Jersey and Shorthorn cow giving milk; three yearling heifers, half Jersey and Shorthorn; one good yearling red steer; three weanling calves.

65 Head of Hogs 65

Fourteen head of Poland China brood sows, due to commence farrowing about middle of March. Fifty head of Fall shoats, all double immune and just ready for buyer to make money on. One extra good Big Type Poland Boar.

2000 BUSHELS OF GOOD YELLOW CORN IN CRIB

This corn will all be assorted and I feel sure that it will keep, as the land upon which it was raised matures as early as any.

SOME MIXED HAY IN MOW. ABOUT 50 BUSHELS OATS IN BIN

IMPLEMENTS—One Deering binder, one mower, one two-row corn plow, one riding Janesville break plow, one riding Oliver break plow, one double disc harrow, one spring tooth harrow, one walking break plow, one Janesville corn planter, fertilizer attachment, one manure spreader, one farm wagon, work harness for 5 horses. Many other articles too numerous to mention.

TERMS OF SALE—All sums of \$10 and under, cash; on above that amount a credit until December 25, 1918, without interest, will be given, purchaser to execute note that meets with the approval of the clerk. All settlements to be made with him. A discount of 5% for cash. Absolutely nothing to be removed until settled for.

DOUBLY PROVEN

Rushville Readers Can no Longer Doubt The Evidence

This Rushville citizen testified long ago.

Told of quick relief—of undoubted benefit.

The facts are now confirmed.

Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit.

Harrison Levi, 931 N. Sexton St., says: "I used to have to get up six or seven times each night on account of the too frequent passages of the kidney secretions. Often the secretions were scanty and they caused pain in passage. Nothing ever did me any good until I began taking Doan's Kidney Pills, which I got from Johnson's Drug Store. It didn't take them long to fix me up, the pains left and my kidneys again acted regularly."

OVER THREE YEARS LATER, Mr. Levi said: "I am glad to confirm my former endorsement of Doan's Kidney Pills for they have given me a permanent cure."

"Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Levi had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—(Adv.)"

NON-RESIDENT NOTICE

The State of Indiana, Rush Co., ss: In the Circuit Court of Rush County, State of Indiana:

November Term, A. D., 1918.

Charles E. Morris vs. William Mc Aldridge et al. Suit to quiet title to real estate.

Be it known that on this 23d day of January, in the year 1918, the above named plaintiff, by Chauncey W. Duncan, his attorney, filed in the office of the clerk of the Rush Circuit Court, his complaint against the defendants in the above entitled cause, together with an affidavit of a competent person that said defendants, William Mc Aldridge, the heirs, devisees, legatees, next of kin and legal representatives of William Mc Aldridge, deceased, whose names are unknown; Mary M. Aldridge, wife of William Mc Aldridge, whose christian name is unknown; the heirs, devisees, legatees, next of kin, and legal representatives of Mary M. Aldridge, deceased, wife of William Mc Aldridge, whose names are unknown; Nathan T. Aldridge, the heirs, devisees, legatees and next of kin and legal representatives of Nathan T. Aldridge, deceased, whose names are unknown; Aldridge, the wife of Nathan T. Aldridge, whose christian name is unknown; the heirs, devisees, legatees, next of kin and legal representatives of Aldridge, deceased wife of Nathan T. Aldridge, whose names are unknown; Mahala Thrasher, the heirs, devisees, legatees, next of kin and legal representatives of Mahala Thrasher, deceased, whose names are unknown; Samuel Thrasher, husband of Mahala Thrasher; the heirs, devisees, legatees, next of kin and legal representatives of Samuel Thrasher, deceased, whose names are unknown; Charles M. Aldridge, the heirs, devisees, legatees, next of kin, and legal representatives of Charles M. Aldridge, whose names are unknown; Mary C. Aldridge, the heirs, devisees, legatees, next of kin, and legal representatives of Mary C. Aldridge, deceased, whose names are unknown; are not residents of the state of Indiana.

Said defendants are therefore hereby notified of the filing and pendency of said complaint against them and that unless they appear and answer or demur thereto, at the calling of said cause at the court house, in the city of Rushville, Rush county, and state of Indiana, on the—day of March, 1918, said complaint, and the matter of things therein contained and alleged, will be heard and determined in their absence.

Witness the Clerk and Seal of said court, this 23d day of January, 1918.

How Much Food Does a Family Need These Days?

(From the United States Department of Agriculture.)

At a time when it is imperative that as much food as possible should be raised and as little as possible wasted, the housewife needs to know how much food is really necessary for the preservation of bodily health and how much is eaten merely to please the appetite.

To ascertain the correct answer to these questions in the individual case would involve an amount of figuring which it is hardly likely that the ordinary woman would care to undertake. Obviously the amount of food varies with the kind of work that the person does, and children require a somewhat different ration, more abundant in some respects and less abundant in others, than adults. For practical purposes, however, it is quite possible for the housewife with a little thought to furnish meals that approximate at least the quantity which the health of her family requires.

In Farmers' Bulletin 808, "How to Select Foods," the following materials are suggested as one of the many combinations suitable for a day's ration for a family consisting of a man and a woman who do moderately hard muscular work, and of three children between three and twelve years old:

Four and one-half pounds of bread, having the same food value as three pounds of wheat or rye flour, oatmeal, cornmeal or hominy, or rice; or about 2 1/2 pounds of cereals and five or six medium-sized potatoes.

Three-fourths cupful of fat (butter or butter with oil, beef drippings or other fat)—a weekly allowance of 2 1/2 to 3 pounds.

A little more than one cupful of sugar, or a weekly allowance of four pounds; or an equivalent amount of some other sweet.

Four pounds in all of fresh fruits and fresh or root vegetables.

One of the two following, the choice depending on the age of the children:

Three quarts of milk and one pound of other foods taken from the meat and meat-substitute group.

Two quarts of milk and 1 1/2 pounds of other foods taken from the meat and meat-substitute group.

In these materials bread and other preparations of cereals play an important part. This is because such foods are wholesome and economical, whether the cereal is used as a breakfast dish, as flour or meal in bread and cakes, or in other ways. An equally nourishing and wholesome diet might be planned which would contain less cereal, but this would make it necessary to increase the amount of more costly foods, such as meats, fruits, vegetables and sweets. To make a ration in which cereals play such an important part attractive, however, it is necessary that they be prepared with care and with the exercise of some ingenuity to secure variety in flavor. For example, rice, macaroni and hominy can often be made more appetizing and nutritious by combining with them small amounts of materials which have

more distinctive flavors. Among these are meat and cheese, and onions, tomato and other seasoning vegetables.

As an illustration of the way in which the materials already mentioned may be utilized for a family's daily meals, the bulletin suggests the following combinations. These, it is pointed out, are merely suggestions, and other equally nutritious and economical combinations may be made which seem more attractive to the individual's tastes.

Sample Meals for a Family. (Man, woman and three small children.)

BREAKFAST.

Fruit, 1 1/4 pounds of fresh fruit (equivalent to three medium-sized oranges, five small apples, or a quart box of strawberries), or three or four ounces of dried fruits (equivalent to ten or twelve dates or four or five figs).

Cereal breakfast food, four ounces before being cooked, or about 1 1/2 pints after it is cooked. The equivalent in food value in puffed or flaked, ready-to-eat cereals would be five or six cupfuls.

Milk on cereal, one-fourth cupful for each person.

Sugar on fruit, on cereal, or in coffee, 2 1/2 level tablespoonfuls or 1 1/4 ounces.

Bread, eight slices, or eight ounces.

Butter, 1 1/4 ounces, or 2 1/2 cubic inches.

An egg or two ounces of meat, fish or poultry for each older person, and a glass of milk for each young child.

DINNER.

Meat, or fish, one-fourth pound per grown person; or, for each child, an egg or a glass of milk.

Potatoes (five medium sized), 1 1/4 pounds.

Another vegetable (turnips, spinach, corn, cauliflower, or other), one pound.

Bread, eight slices, or eight ounces.

Butter, 1 1/4 ounces, or 2 1/2 cubic inches.

Steamed apple (or other fruit) pudding. (Ingredients: Two cupfuls flour, two tablespoonfuls butter, three-fourths cupful milk, four apples, one tablespoonful sugar.)

Sauce. (Ingredients: One-half cupful sugar, 1 1/4 tablespoonfuls flour, two teaspoonfuls butter, one-fourth cupful water, flavoring.)

SUPPER.

A gravy made out of one pint of skim milk, one-fourth cupful flour, two level teaspoonfuls butter and four ounces salt or smoked fish (just enough for flavor). To this can be added the egg yolk left from the frosting of the cake. (See below.)

Rice, eight ounces, or one cupful, measured before being cooked.

Bread, eight slices, or eight ounces.

Butter, 1 1/4 ounces, or 2 1/2 cubic inches.

One-half of a cake. (Ingredients for whole cake: One-fourth cupful butter, one-half cupful sugar, one egg, one-half cupful milk, 1 1/4 cupfuls flour, 2 1/2 teaspoonfuls baking powder.)
Frosting made with one egg white and one-fourth cupful sugar.

Oliver Chilled Plow Works

Indianapolis, Indiana, Jan. 19, 1918.

Mr. John B. Morris,
Rushville, Indiana.

Dear Sir:—No one can tell at this time what the situation is going to be in regard to making shipments later on in the season, nor can we tell whether or not we shall be able to get all the material necessary to furnish all of the parts required to take care of your requirements.

In order to protect you and your customers, as well as ourselves, to as great an extent as possible, we should like for you to see that your farmer customers order from you, and you from us, such repairs as may be necessary to put their tools, where they are to be repaired, in first class condition, ready for use; also sares and other parts that will be needed from time to time during the plowing, seeding and cultivating season.

Very truly yours,

OLIVER CHILLED PLOW WORKS
C. F. ROGERS, Manager

The above letter has been received by me direct from the manager of the Oliver Chilled Plow Works, and explains very thoroughly the present situation. Your orders are solicited.

Save a loaf a week help win the war

HASTENED RUSSIAN COLLAPSE

"We must not overlook the fact that Russia collapsed, not because of the Germans on her borders, but because she failed to organize and feed her own citizenship," the food administration announced.

"We must be warned that if we are to emerge victorious from this war we cannot risk the collapse of another of our associates in this war from this cause."

"Anybody that is looking for the collapse of the German people on the food question had better turn around and look at the moon," because the Russian will be the same, Germany is in the same danger of collapse as Russia.

WHY WE MUST SAVE FOOD.

The 1917 wheat crop in France was less than half normal, using the crop of 1913 as a basis of comparison. There was a shortage of 178,000,000 bushels, or 53.3 per cent. The potato crop was only within one-third of normal. The sugar beet crop showed a deficit of 67.9 per cent. Her meat herds in the early fall showed a shortage of 1,800,000 animals.

Those are a few of the reasons America must feed her associates in the war. They are no longer able to feed themselves and unless we come to the rescue they are likely to starve. And that is a terrible thought.
